### ^ Description

The Signature EM-40 PLUS 40 inch Roll Laminator is the ideal affordable laminating solution for users who need to do thermal laminating and 3/16" mounting. Lamination of any size document up to 40" in width make the Signature 40" roll laminator perfect for the wide format print market. Laminating film up to 5 mil in thickness can be used with this roll laminator. Any size laminating film including the most common 25 inch and 27 inch film can be used when smaller size lamination is required.

### ^ Description

Featuring a modern office design that compliments its environment and performance to match. Print multi-size jobs easily with auto switching between roll and tray. Enjoy high-speed printing as fast as 26 sec per A1 plot.[5] 1 GB memory. AEC, GIS, and MCAD professionals who want to print maps, technical drawings, posters, and renders with precise, accurate line quality and crisp text. This is design that meets performance in the world's easiest large-format plotters.[1] Extreme simplicity helps you save time and print with confidence. Send multiple files in one click.[4] Save time from job prep to final print. This printer is intended to work only with cartridges that have a new or reused HP chip, and it uses dynamic security measures to block cartridges using a non-HP chip. Periodic firmware updates will maintain the effectiveness of these measures and block cartridges that previously worked. A reused HP chip enables the use of reused, remanufactured, and refilled cartridges. More at: <http://www.hp.com/learn/ds>

Free, convenient HP ink cartridge and printhead recycling with HP Planet Partners; FSC®-certified papers and a range of recyclable HP media with a take-back program; First net carbon neutral HP DesignJet plotter; ENERGY STAR® certified
