Project Description	Community Wealth Building (CWB) is an approach to economic development that promotes the local, democratic, and shared ownership and control of community assets. CWB exclusively focuses on shared-equity models, giving historically disinvested communities more accessible and sustainable pathways to building wealth by sharing in the purchase and ownership of businesses, housing, and land. Examples of CWB models include worker cooperatives, limited-equity housing cooperatives, community land trusts, and community investment vehicles in commercial real estate. The project has two major components: (1) Ecosystem Development Program – providing multi-year contracts with technical assistance organizations to provide free, highly specialized services (e.g. legal, financial, business development, community education) to CWB models; and (2) Large Scale Pilot Projects – development grants or loans to approximately 2-3 large scale CWB projects on the South and West Sides.
