

Upgrading Our Bike Network

AUGUSTA BOULEVARD from Milwaukee Ave to Western Ave

Project Goals

- Safer automobile speeds
- Safer pedestrian crossings
- Reduce the severity of motor vehicle crashes
- Increase safety and comfort for people biking
- Better organize school pick-up and drop-off
- Create a protected bike lane connecting to Milwaukee Ave

1.3 miles of new protected bike lanes

Augusta Boulevard at Leavitt Street

Infrastructure Highlights

1. **Protected bike lanes** with concrete barriers and parking lanes to separate people biking from moving vehicles
2. **20 MPH** posted speed limit and narrower travel lanes to reinforce safe speeds
3. **Curb extensions** to reduce crossing distances by more than half for people walking across Augusta
4. **Enhanced pavement markings** to emphasize the presence of people at crossings and intersections

Project Results

SAFER DRIVING ON AUGUSTA

↑ **29%** more people driving under 20 mph

↓ **35%** less people driving over 30 mph

POSITIVE COMMUNITY FEEDBACK

“I can see it’s safer for the people who [ride a bike].”
