

# HOW TO VERIFY VACCINATION STATUS

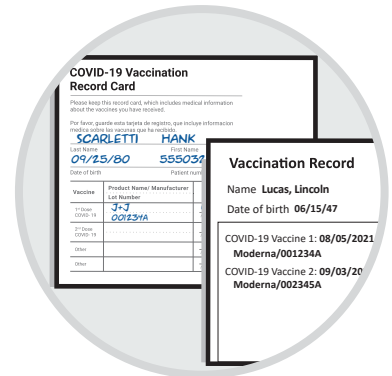

**STEP 1:** Verify that the proof of vaccination has the person's name, vaccine brand, and dates administered.

## COVID-19 Vaccination Card or Immunization Record

Verify vaccine maker:

- If J&J, verify single dose with date 14 days prior to today.
- If Pfizer or Moderna, verify 2 doses. The second dose should be 14 days prior to today.

## QR Code

Use the Smart Health Card Verifier App. When the app can confirm a vaccination record, it will show:

- A green "Verified" message
- Information about the vaccination

**STEP 2:** For all individuals age 16 and older, verify that the info on the vaccination card or record matches a valid photo ID.

*Note: Proof of vaccination from another country is also valid.*
