& Towers, 301 East North
Water Street

The Wrigley Building,
400-410 North Michigan
Avenue

There are many tall buildings in Chicago. Here are a few we really look up to.

Thank you to the founding participants in Retrofit Chicago's Commercial Building Initiative, launched yesterday by Mayor Emanuel. All of these buildings will cut their energy use by at least 20% over the next 5 years, lowering pollution and leading the way to a clean energy future. To find out how your building can become more energy efficient, and to join the initiative, e-mail: sustainability@cityofchicago.org.
