

Block clubs are groups of people who have homes and families on any given block in the city and have organized to improve the quality of life in their neighborhood.

They share information, identify concerns and act collectively to address these concerns.

They help preserve the quality of life in the communities and neighborhoods.

They also help in getting neighbors acquainted with one another, which in turn builds and strengthens relationships.

Forming a block club can help you and your neighbors increase the safety of your community by guarding against gangs, drugs, and other unwanted activity. An organized neighborhood is a safer neighborhood.

Though your specific needs may differ, you and your neighbors all want the same thing... a safe environment in which to live and raise your families.
