OFFICE OF THE MAYOR  
CITY OF CHICAGO

RICHARD M. DALEY  
MAYOR

To the Citizens of Chicago and the Financial Community:

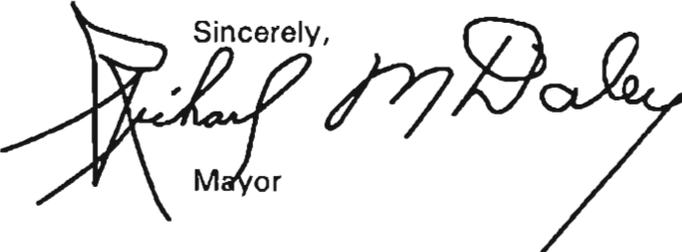

As Mayor of Chicago, I am proud to present the Comprehensive Annual Financial Report (CAFR) of the City of Chicago for the fiscal year 2008.

In the past year, we have worked to ensure that City government provides essential services to Chicago residents today and in the years and decades to come. In these difficult economic times, we are investing in our infrastructure and training our workers to compete in the global economy.

Through capital spending, we have created new jobs, especially in the construction industry. We have helped to rebuild community anchors, streets, alleys and sidewalks, and are working every day to improve the education of our students, which is essential to our long-term economic health and vitality.

We were able to use proceeds from leased City assets to assist in balancing our budget. Most importantly, we were able to reach an agreement with our unions to responsibly reduce personnel. Proceeds from our public-private partnerships were also used to invest in programs for people in need for the next several years, as well as provide critical stability to our budget in both the short and long term.

While there may be tough times ahead, we will get through them if we continue to act early, make the right financial choices, and work towards making Chicago an even better place to live, work and raise families.

Sincerely,  
  
Mayor

**CITY OF CHICAGO  
THE CITY COUNCIL  
As of December 31, 2008  
RICHARD M. DALEY, Mayor**

June 26, 2009

To the Honorable Mayor Richard M. Daley,  
Members of the City Council and Citizens of the City of Chicago:

We are pleased to submit the Comprehensive Annual Financial Report (CAFR) of the City of Chicago (City) for the year ended December 31, 2008. State Law requires that all governmental units publish within six months of the close of each fiscal year, financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited by a licensed public accountant.

Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with management. The purpose of the CAFR is to provide complete and accurate financial information which complies with the reporting requirements of the Municipal Code of Chicago (Code). The City's financial management is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the government are protected from loss, theft or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with GAAP.

The internal control structure is designed to provide reasonable, but not absolute assurance that these objectives are met. The concept of reasonable assurance recognizes that the cost of control should not exceed the benefits likely to be derived, and that the valuation of costs and benefits requires estimates and judgments by management. An evaluation of the internal control structure during the City's annual independent audit disclosed no material weaknesses.

The Code also requires the City's basic financial statements to be audited by independent certified public accountants selected by the Committee on Finance of the City Council. This requirement has been met, and the unqualified audit opinion, rendered by Deloitte & Touche LLP, is included in the financial section of this report. The audit was conducted as a subcontractor arrangement between Deloitte & Touche LLP and a consortium of Chicago-based minority and women-owned certified public accounting firms.

In addition to meeting the requirements set forth in the Code, an additional audit designed to meet the requirements of the federal Single Audit Act Amendment of 1996 and related OMB Circular A-133, Audits of State and Local Governments is performed annually.

GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors.

---

**Profile of the Government.** The City, incorporated in 1837, currently occupies a land area of approximately 228 square miles and serves a population of approximately 2,896,000. The City of Chicago is a “home rule” unit of local government under State of Illinois law. The City has a mayor-council form of government. The Mayor is the Chief Executive Officer of the City and is elected by general election. The City Council is the legislative body and consists of 50 members, each representing one of the City’s 50 wards. The members of the City Council are elected through popular vote by ward for four-year terms.

The City provides public safety, street maintenance and sanitation, transportation infrastructure, water, sewer, health, cultural, aviation and human services. In addition to general government activities, the City has certain entities which are fiscally dependent on the City and perform services primarily for City employees such as the Municipal Employees’ Annuity and Benefit Fund, Laborers’ and Retirement Board Employees’ Annuity and Benefit Fund, Policemen’s Annuity and Benefit Fund and Firemen’s Annuity and Benefit Fund. These component units are included in the City’s reporting entity.

Additional services are provided by the following related organizations: the Chicago Public Schools, Chicago Park District, Chicago Transit Authority, City Colleges of Chicago and the Chicago Housing Authority.

Annual budgets are adopted for the general fund and certain special revenue funds. Prior to November 15, the Mayor submits to the City Council a proposed budget of expenditures and the means of financing them for the next year. The budget document is available for public inspection for at least ten days prior to passage of the annual appropriation ordinance by the City Council, which is also required to hold at least one public hearing. Prior to January 1, the budget is legally enacted through passage of the appropriation ordinance. Additional information on the budgetary process can be found in Note 3 in the notes to financial statements.

**Factors Affecting Financial Condition.** The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City operates.

**Local Economy.** In 2007, the United States Olympic Committee selected Chicago as the U.S. candidate city to host the 2016 Olympic games and 2016 Paralympic Games. The City will now compete with candidate cities from other countries to host the games. The International Olympic Committee is expected to award the Games to one of the candidate cities in October of 2009.

Chicago continues to enjoy one of the most diverse economies in the nation and a geographic location that makes Chicago the nation’s transportation hub whether by rail, air or water. Chicago’s economy is based on manufacturing, printing and publishing, finance and insurance as primary sectors. The source of nationally distributed magazines, catalogs, educational materials, encyclopedias, and specialized publications, Chicago ranks second only to New York in the publishing industry. Chicago also has a significant financial presence with such institutions as the CME Group, (formerly the financial exchanges of the Board of Trade and the Chicago Mercantile Exchange) and the Chicago Climate Exchange. Chicago consistently leads the nation in business investment and expansion, and 2008 was no exception. The City garnered direct investment and welcomed many new additions to its diverse economy. In July 2008, MillerCoors announced it will locate its headquarters in downtown Chicago, bringing between 300-400 executive and management jobs to the city in 2009. Additionally, Ariva, the world’s fifth largest insurance company, also selected Chicago for its new North American executive offices. Real estate activity has

---

decreased but significant development remains. The City continues to be a destination for both business and leisure travelers as tourism and convention activity continues to grow.

There are many local attractions, museums, festivals and professional sports teams that help to strengthen the area economy and provide jobs. The Tax Increment Financing (TIF) program continues to be a valuable job creation and economic development program in the city.

**Long-term Financial Planning.** The City continues to look at innovative ways to finance improvements through private public partnerships such as the concession leases of the Chicago Skyway, Chicago Downtown Public Parking System and the Chicago Parking Meter System. In addition, the City has realized savings through advance refundings as interest rates have changed. The City is also evaluating other revenues to assist in financing capital assets.

**Cash Management.** To maximize interest income, the City aggregates and invests cash and investments of all funds except the City's pension and certain other funds required to be held in separate accounts in accordance with bond indentures. Interest earnings on the aggregated funds are allocated annually to participating funds. As part of the investment decision-making process, annual cash flow projections and monthly variance reports are used by management.

**Risk Management.** The City maintains a self-insurance program for substantially all of its governmental operations except O'Hare and Midway Airports operations and construction of projects, which are insured privately.

**Pension Plans and Other Post-employment Benefits.** Eligible City employees participate in one of four single-employer defined benefit pension plans. These plans are the Municipal Employees', the Laborers' and Retirement Board Employees', the Policemen's and Firemen's Annuity and Benefit Funds. The City makes payments to the pension trust funds in accordance with state law. The City's contribution is comprised of the property tax levy and the personal property replacement tax. In 1998, the state law was amended to reduce the City multiplier for the Laborers' and Municipal Pension Funds in subsequent years. As a result of the City's funding policies, the pension plans have funded the following percentages of the present value of the projected benefits earned by employees: Municipal employees' 64 percent, the Laborers' and Retirement Board Employees' 89 percent, the Policemen's Annuity and Benefit Fund 48 percent and the Firemen's Annuity and Benefit Fund 40 percent. There is a two-year lag between the City's reported pension cost and personnel services expenditures to which they relate because state law mandates that City contributions be made two years in arrears.

Under state law certain health benefits are available to employees who retire from the City based upon their participation in the City plans. Municipal or Laborers' pension plan participants older than age 55 with at least 20 years of service and Police and Fire pension plan participants older than age 50 with at least 10 years of service may become eligible for post-employment benefits. Health benefits include basic benefits for the annuitant and supplemental benefits for Medicare eligible annuitants. In 2008, there were approximately 24,323 annuitants and their dependents enrolled in the plan.

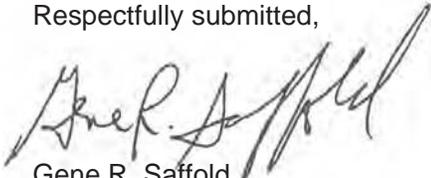

---

**Awards and Acknowledgments.** The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Chicago for its comprehensive annual financial report for the fiscal year ended December 31, 2007. This was the fifteenth consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

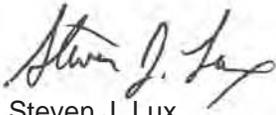

A Certificate of Achievement is valid for a period of one year only. We believe our current comprehensive annual financial report continues to meet the Certificate of Achievement program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

This report could not have been prepared without the dedication and effective help of the staff of the Department of Finance. We wish to express our appreciation to those who contributed to the preparation of this report.

Respectfully submitted,

Gene R. Saffold  
Chief Financial Officer

Steven J. Lux  
City Comptroller

# Certificate of Achievement for Excellence in Financial Reporting

Presented to

City of Chicago  
Illinois

For its Comprehensive Annual  
Financial Report  
for the Fiscal Year Ended  
December 31, 2007

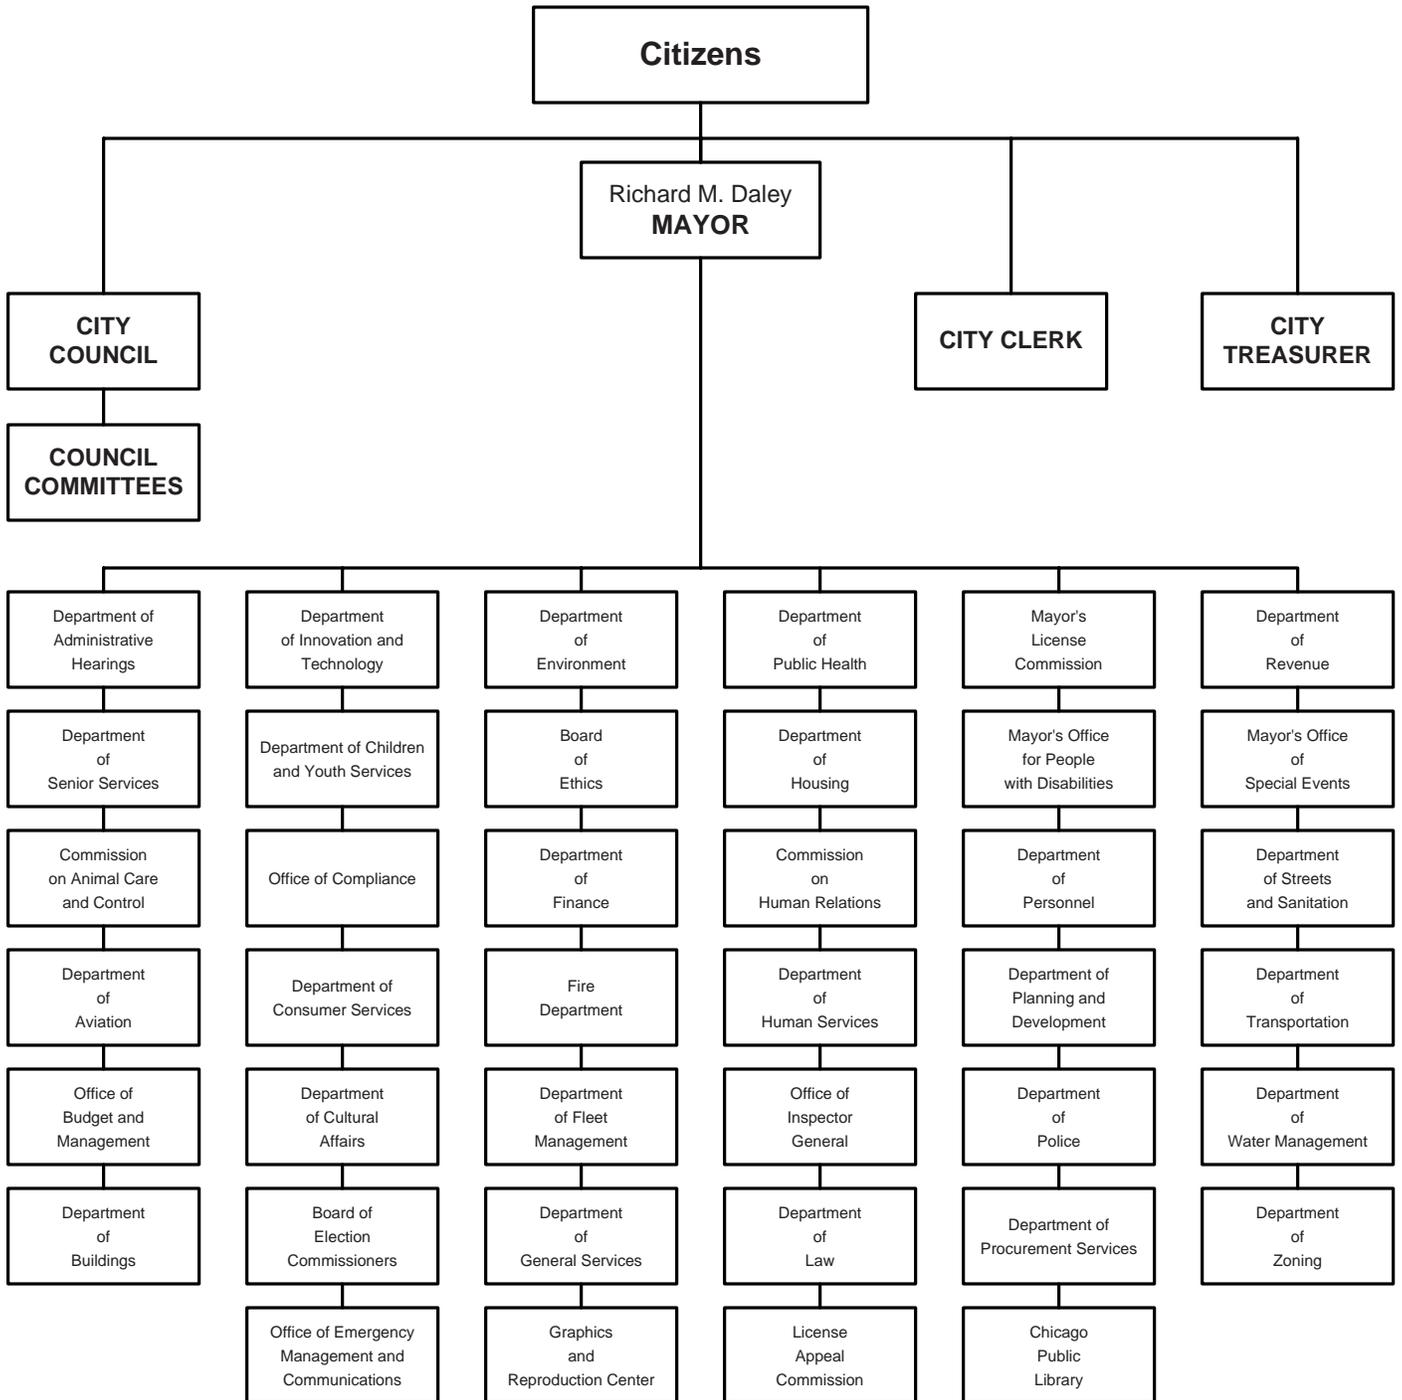

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

President

Executive Director

**FINANCIAL SECTION**

**INDEPENDENT AUDITORS' REPORT,  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
AND  
THE BASIC FINANCIAL STATEMENTS**

## INDEPENDENT AUDITORS' REPORT

To the Honorable Richard M. Daley, Mayor,  
and Members of the City Council  
City of Chicago, Illinois

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Chicago, Illinois (the "City"), as of and for the year ended December 31, 2008, which collectively comprise the City's basic financial statements, as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express an opinion on these financial statements based on our audit. We did not audit the financial statements of the City's Pension Plans (the "Plans") which, in aggregate, represent substantially all the assets and revenues of the fiduciary funds, included in the aggregate remaining fund information. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for the Plans, is based solely on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the respective financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the respective financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective net assets or financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City, as of December 31, 2008, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparison for the General Fund for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

The Management's Discussion and Analysis and Schedule of Other Postemployment Benefits Funding Progress, as listed in the foregoing table of contents, are not a required part of the basic financial statements, but are supplementary information required by the Governmental Accounting Standards Board. This supplementary information is the responsibility of the City's management. We and other auditors have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the City's respective financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual fund statements, and the statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. This supplementary information is the responsibility of City's management. The combining and individual fund statements have been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, in our opinion, based on our audit and the report of other auditors, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we express no opinion on them.

*Deloitte & Touche LLP*

June 26, 2009

### Management's Discussion and Analysis

As management of the City of Chicago, Illinois (City) we offer readers of the City's Comprehensive Annual Financial Report (CAFR) this narrative overview and analysis of the financial activities of the City for the fiscal year ended December 31, 2008. We encourage the readers to consider the information presented here in conjunction with information that we have furnished in our letter of transmittal, contained within this report.

#### Fiscal 2008 Financial Highlights

- Assets of the City, in the government-wide financial statements, exceeded its liabilities at the close of the most recent fiscal year by \$830.1 million (*net assets*). Of this amount, \$5,610.3 million is an unrestricted deficit, while \$2,818.3 million is invested in capital assets, net of related debt and \$3,622.0 million is restricted for specific purposes.
- The City's total assets increased by \$580.2 million. The increase relates to \$1,054.4 million increase in capital assets as a result of the City's capital improvement program and \$492.2 million decrease in unrestricted and restricted cash and cash equivalents and investments as a result of debt financing used to support the capital plan.
- Revenues and Other Financing Sources, in the fund financial statements, available for general governmental operations during 2008 were \$6,673.7 million, a decrease of \$789.5 million (10.6 percent) from 2007.
- The General Fund, also in the fund financial statements, ended 2008 with a total Fund Balance of \$48.4 million. Total Fund Balance increased from 2007 primarily because Revenues and Other Financing Sources were more than Expenditures and Other Financing Uses by \$1.4 million. Fund Balance at December 31, 2008 of \$30.1 million was reserved for commitments. Unreserved Fund Balance was \$.2 million at December 31, 2008, compared to a balance of \$4.6 million at the end of 2007.
- The City's general obligation bonds and notes outstanding increased by \$76.9 million during the current fiscal year. The proceeds from the increase in bonds were used to finance the City's capital plan.

#### Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements, which include the following components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains required supplementary information and other supplementary information in addition to the basic financial statements. These components are described below:

**Government-wide financial statements.** The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, using accounting methods similar to those used by private-sector companies. The statements provide both short-term and long-term information about the City's financial position, which assists in assessing the City's economic condition at the end of the fiscal year. These financial statements are prepared using the flow of economic resources measurement focus and the accrual basis of accounting. This basically means such statements follow methods that are similar to those used by most businesses. They take into account all revenues and expenses connected with the fiscal year even if cash involved has not been received or paid. The government-wide financial statements include two statements:

The *statement of net assets* presents information on all of the City's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City is improving or deteriorating, respectively. To assess the overall health of the City, the reader should consider additional non-financial factors such as changes in the City's property tax base and the condition of the City's roads.

The *statement of activities* presents information showing how the government's net assets changed during each fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of the related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future periods (for example, uncollected taxes, and earned but unused

**CITY OF CHICAGO, ILLINOIS  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
YEAR ENDED DECEMBER 31, 2008 - Continued**

---

vacation). This statement also presents a comparison between direct expenses and program revenues for each function of the City.

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include general government, public safety, streets and sanitation, transportation, health, and cultural and recreation. The business-type activities of the City include water, sewer, tollway and airport services.

The government-wide financial statements present information about the City as a primary government, which includes the Chicago Public Library and the City related funds of the Public Building Commission. The government-wide financial statements can be found immediately following this management's discussion and analysis.

**Fund financial statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

**Governmental funds.** *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of a fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between *governmental funds and governmental activities*.

The City maintains 19 individual governmental funds. Information for the six funds that qualify as major is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances. The six major governmental funds are as follows: the General Fund, the Federal, State and Local Grants Fund, the Special Taxing Areas Fund, the Reserve Fund, the Bond, Note Redemption and Interest Fund, and the Community Development and Improvement Projects Fund. Data from the other governmental funds are combined into a single, aggregated presentation.

The City adopts an annual appropriation budget for its general and certain special revenue funds on a non-GAAP budgetary basis. A budgetary comparison statement has been provided for the General Fund, the only major fund with an appropriation budget, to demonstrate compliance with this budget. The basic governmental fund financial statements can be found immediately following the government-wide statements.

**Proprietary funds.** These funds are used to show activities that operate more like those of commercial enterprises. Because these funds charge user fees for services provided to outside customers including local governments, they are known as enterprise funds. Proprietary funds, like government-wide statements, use the accrual basis of accounting and provide both long- and short-term financial information. There is no reconciliation needed between the government-wide financial statements for business-type activities and the proprietary fund financial statements. The City uses five enterprise funds to account for its water, sewer, tollway and two airports operations. Proprietary funds provide the same type of information as the government-wide financial statements, but provide more detail. The proprietary fund financial statements provide separate information for the Water Fund, Sewer Fund, Chicago Skyway Fund, Chicago-O'Hare International Airport Fund and the Chicago Midway International Airport Fund. All the proprietary funds are considered to be major funds of the City. The basic proprietary fund financial statements can be found immediately following the governmental fund financial statements.

**CITY OF CHICAGO, ILLINOIS  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
YEAR ENDED DECEMBER 31, 2008 - Continued**

**Fiduciary funds.** Fiduciary funds are used to account for resources held for the benefit of parties outside the primary government. The City is the trustee, or fiduciary, for its employees' pension plans. It is also responsible for other assets that, because of a trust arrangement can be used only for the trust beneficiaries. The City also uses fiduciary funds to account for transactions for assets held by the City as agent for various entities. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. All of the City's fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of changes in fiduciary net assets. The accounting used for fiduciary funds is much like that used for proprietary funds. The basic fiduciary fund financial statements can be found immediately following the proprietary fund financial statements.

**Notes to the basic financial statements.** The notes provide additional information that is essential to a full understanding of data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found immediately following the fiduciary fund financial statements.

**Additional Information.** The combining statements, which include nonmajor funds, for governmental funds and trust and agency funds are presented immediately following the notes to the financial statements

**Financial Analysis of the City as a Whole**

**Net assets.** As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the City, assets exceeded liabilities by \$830.1 million at December 31, 2008.

A large portion of the City's net assets, \$2,818.3 million reflects its investment in capital assets (land, buildings, roads, bridges, etc.), less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

**City of Chicago, Illinois

**CITY OF CHICAGO, ILLINOIS  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
YEAR ENDED DECEMBER 31, 2008 - Continued**

---

An additional portion of the City's net assets (\$3,622.1 million) represent resources that are subject to external restrictions on how they may be used.

**Governmental Activities.** Net assets of the City's governmental activities decreased \$870.7 million to a deficit of \$755.3 million. However, a significant portion of those net assets are either restricted as to the purpose they can be used for or they are invested in capital assets (buildings, roads, bridges, etc.) net of related debt. Consequently, unrestricted net assets showed a \$4,092.4 million deficit at the end of this year. This deficit does not mean that the City does not have the resources available to pay its bills next year. Rather, it is the result of having long-term commitments that are greater than currently available resources. Specifically, the City did not include in past annual budgets the full amounts needed to finance future liabilities arising from personnel, property, pollution and casualty claims (\$642.4 million), Municipal employees, Policemen's and Firemen's net pension obligation (\$2,874.7 million) and post-employment benefits (\$269.3 million). The City will include these amounts in future years' budgets as they come due. In addition, the remaining long-term lease obligation of \$551.1 million will be amortized into income over the life of the concession lease agreement.

Over half of the City's revenue comes from taxes. Total taxes increased by 3.3 percent. Total taxes include an increase in property taxes of \$67.5 million (9.2 percent) relating to the increase in the amount levied. Other taxes increased by \$33.0 million (1.5 percent). Federal/State grants vary from year to year depending primarily on the level of spending for programs, construction and other projects.

Expenses for governmental activities in 2008 were \$6,264.0 million. This reflects a decrease of \$13.0 million (.2 percent) over 2007. Public Safety was the largest component of current expenses, accounting for 38.9 percent of total expenses. Expenses remained consistent with 2007 expenses.

The cost of all governmental activities was \$6,264.0 million.

- The amount that taxpayers paid for these activities through City taxes was only \$3,094.0 million.
  - ◆ Some of the cost was paid by those who directly benefited from the programs (\$653.1 million), or
  - ◆ By other governments and organizations that subsidized certain programs with grants and contributions (\$764.3 million).

The City paid for the "public benefit" portion with \$881.9 million with other revenues such as state aid, interest and miscellaneous income.

Although total net assets of business-types activities were \$1,585.4 million, these resources cannot be used to make up for the net asset deficit in governmental activities. The City generally can only use these net assets to finance the continuing operations of the water, sewer, tollway, and airports activities.

---

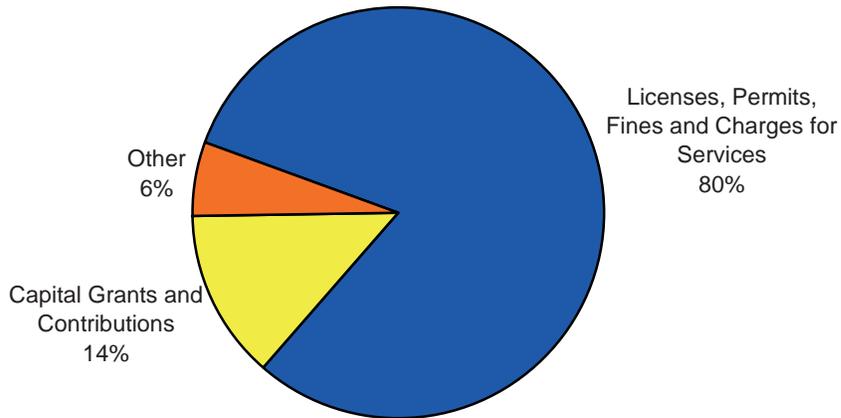

**Business-type Activities.** Revenues of the City's business-type activities increased by \$30.0 million in 2008 due primarily to increases in charges for services. All Funds met debt service coverage ratios set forth in the applicable bond indentures.

- The Water Fund's revenues for 2008 increased by 10.7 percent from 2007 due to an increase in water rates. Operating expenses in 2008 increased by 6.1 percent primarily due to an increase in materials and depreciation.
- The Sewer Fund's revenues increased 15.4 percent during fiscal year 2008, as the result of an increase in water and sewer rates. Administrative and general costs increased by \$8.0 million as a result of additional costs associated with sewer cleaning and administrative functions.
- Chicago Midway International Airport Fund's operating revenues for 2008 increased by \$17.7 million compared to prior year operating revenues. This increase is principally due to increased rents, concessions and other charges. Operating expenses increased by \$1.9 million primarily due to increased depreciation and amortization.
- Chicago-O'Hare International Airport Fund's operating revenues for 2008 increased by \$31.5 million (4.8 percent) compared to prior year operating revenues as a result of increased fund deposit requirements. Operating expenses increased by \$34.4 million as a result of an increase in contractual services, repairs and maintenance, and other expenses.
- The Chicago Skyway was leased for 99 years to a private company. The agreement granted the company to operate the Skyway and to collect toll revenue during the term of the agreement. The City received an upfront payment of \$1.83 billion of which \$446.3 million was used to advance refund all of the outstanding Skyway bonds. The upfront payment is being amortized into non-operating revenue over the period of the lease (\$18.5 million annually).

MANAGEMENT'S DISCUSSION AND ANALYSIS  
YEAR ENDED DECEMBER 31, 2008 - Continued**

---

**Financial Analysis of the City's Funds**

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds.** The focus of the City's *governmental funds* is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At December 31, 2008, the City's governmental funds reported combined ending fund balances of \$1,951.0 million, a decrease of \$642.7 million in comparison with the prior year. Of this total amount (\$780.6 million) constitutes *undesignated fund balance*, which is available for spending at the government's discretion. The remainder of fund balance is *reserved* to indicate that it is not available for new spending because it has already been committed 1) to liquidate contracts and purchase orders of the prior period (\$149.2 million), 2) to pay debt service (\$313.6 million), 3) to provide a long-term reserve (\$500.0 million), 4) for future appropriations (\$160.3 million), and 5) for a variety of other restricted purposes (\$47.2 million).

The General Fund is the chief operating fund of the City. At the end of the current fiscal year, unreserved fund balance of the General Fund was \$.2 million with a total fund balance of \$48.4 million. As a measure of the General Fund's liquidity, it may be helpful to compare both unreserved fund balance and total fund balance to total fund expenditures. Total General Fund balance represents 1.6 percent of total General Fund expenditures.

The fund balance of the City's General Fund increased by \$4.1 million during the current fiscal year. Revenues and Other Financing Sources exceeded Expenditures and Other Financing Uses by \$1.4 million.

The Federal, State and Local Grants Fund has a total fund balance of \$13.1 million, \$29.1 million of which is reserved for the resale property, while there is an unreserved, undesignated deficit of \$16.1 million.

The Special Taxing Areas Fund has a total fund balance of \$1,004.2 million, of which \$31.9 million is reserved for encumbrances, and the remaining \$972.3 million is unreserved, undesignated.

The Bond, Note Redemption and Interest Fund has a total fund deficit of \$368.0 million. The net decrease in fund balance during the current year in the Bond, Note Redemption and Interest Fund was \$104.5 million primarily resulting from an increase of debt retirement of \$276.3 million.

The Community Development and Improvement Projects Fund has a total fund balance of \$400.0 million, of which \$49.8 million is reserved for encumbrances and the remaining \$350.2 million is unreserved, undesignated. The decrease in fund balance during the current year in the Community Development and Improvement Projects Fund was \$450.7 million.

The Reserve Fund has a total fund balance of \$660.3 million, of which \$500.0 million is reserved as a long-term trust. The remaining is designated for future appropriations.

**Changes in fund balance.** The City's governmental fund revenues (excluding other financing sources) increased by 2.0 percent or \$107.5 million.

**Proprietary funds.** The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets of the Water, Sewer, Chicago Skyway, Chicago-O'Hare International Airport, and Chicago Midway International Airport Funds at the end of the year amounted to a deficit of \$1,517.9 million. The total increase in unrestricted net assets related to changes in the \$2,323.4 million of net assets invested in capital assets, net of related debt and the \$779.9 million of net assets restricted is primarily due to assets being reserved for debt service,

**CITY OF CHICAGO, ILLINOIS  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
YEAR ENDED DECEMBER 31, 2008 - Continued**

---

construction, and rehabilitation. Other factors concerning the finances of these five funds have already been addressed in the discussion of the City's business-type activities.

**General Fund Budgetary Highlights**

The City's 2008 Original General Fund Budget is \$3,218.5 million. This budget reflects an increase of \$120.8 million (3.9 percent) over the 2007 Budget. The City's 2008 General Fund Budget was approved by the City Council on November 13, 2007.

The General Fund revenues and expenditures in 2008 ended the current fiscal year with an available unreserved fund balance of \$.2 million, which is a \$4.4 million decrease over 2007.

The General Fund revenues on a budgetary basis were \$83.5 million less than the final budget as a result of lower than expected sales, transaction and income taxes. In addition, unfavorable results occurred in internal services revenue, licenses and permits, and leases, rentals and sales. Expenditures were \$83.5 million less than budgeted as a result of favorable variances in general government, primarily as a result of certain labor contracts not being finalized during 2008 as was budgeted. Additional information on the City's budget can be found in Note #3 under Stewardship, Compliance and Accountability within this report.

**Capital Asset and Debt Administration**

**Capital assets.** The City's capital assets for its governmental and business-type activities as of December 31, 2008 amount to \$17,420.3 million (net of accumulated depreciation). These capital assets include land, buildings and system improvements, machinery and equipment, roads, highways and bridges, and property, plant and equipment.

Major capital asset events during the current fiscal year included the following:

- The City continued its LEED Strategy with new libraries, police stations and fire engine company construction projects totaling \$128.0 million in 2008.
- The City also continued its commitment to libraries with the addition of \$13.0 million of books and equipment in 2008.
- The City also completed \$39.0 million in sidewalk, curb and gutter projects. An additional \$62.0 million in bridge and viaduct reconstruction projects were also completed. The City completed street construction and resurfacing projects totaling \$107.0 million in 2008
- The City also completed \$31.0 million in various lighting programs throughout the City of Chicago in 2008.
- During 2008 the Water Fund expended \$251.5 million for capital projects such as structures and improvements, water mains, distribution plants and equipment. The 2008 Water Main Replacement Program completed 38 miles of water mains. Major completed capital projects in 2008 totaling \$76.0 million.
- The 2008 Sewer Main Replacement Program completed 8.6 miles of sewer mains and 27.3 miles of relining of existing sewer mains at a cost of \$96.0 million.
- Chicago Midway International Airport had capital asset additions in 2008 of \$30.8 million principally due to land acquisition, terminal improvements, security enhancements, parking, and runway improvements.
- Chicago-O'Hare International Airport had capital asset additions in 2008 of \$633.0 million principally due to land acquisition, terminal improvements, security enhancements, snow dump improvements, water drainage and sewer, heating and refrigeration, runway, roadway and parking improvements.

Junior Lien	A2	A+	AA-
Sales Tax	Aa3	AAA	AA
Motor Fuel Tax	A1	AA+	A+

In 2007, the City closed and extinguished the First Lien Passenger Facility Charge (PFC) bonds. All outstanding PFC bonds exist within the same lien status.

**Economic Factors and Next Year's Budgets and Rates**

The City's finances are closely tied with the global and national economies. As a result, the City's economically sensitive taxes and tax collections decreased. Nationally the pace of new-home construction was 45 percent below 2007 levels. Additionally, 33 percent less housing units were started in 2008, the worst year for housing starts on record. Therefore, real estate transaction tax collections decreased by 42.0 percent from 2007 collections. Additionally, 2008 transportation tax and sales tax collections decreased by 4.4 percent and 8.9 percent respectively. The business tax, however, increased slightly in 2008 by 2.65 percent over 2007 collections; and the utility tax collection increased by 4.5 percent.

Chicago is a center of tourism and conventions. Chicago's business district includes more than 30,000 hotel rooms within a five-mile range of McCormick Place, the convention facility that contains 2.6 million square feet of exhibit halls. A combination of economic factors and an increase in supply resulted in hotel occupancy declining to 71.8% in 2008 while prices remained steady. Hotel projects completed in 2008 included the Hotel Dana with 216 rooms and the Trump Tower Chicago Hotel with 339 condo/hotel rooms.

In the fourth quarter of 2008, the national unemployment rate reached a sixteen year high of 7.2%. The City's unemployment rate increased to 6.4 percent in 2008 up from 5.6 percent in 2007.

**CITY OF CHICAGO, ILLINOIS  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
YEAR ENDED DECEMBER 31, 2008 - Concluded**

---

On November 19, 2008, the City Council approved the City's 2009 General Fund Budget in the amount of \$3,186.5 million. This budget reflects a decrease over the 2008 General Fund budget of \$32.0 million (1.0 percent). The City's 2009 budget contains an increase to the top-tier of the parking tax from \$2.25 to \$3.00 per day. Additionally, the City imposed an increase in the amusement tax from 4 percent to 5 percent on live theater and from 8 percent to 9 percent on other amusements. Also implemented for the 2009 budget are various increases to use and permit fees to recover the City's costs. These include safety related charges for services, residential parking permits, certain public vehicle licenses and investigation fees.

**Requests for Information**

This financial report is designed to provide a general overview of the City's finances for all of those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the City of Chicago Comptroller's Office.

**IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES**  
**Year Ended December 31, 2008**  
**(Amounts are in Thousands of Dollars)**

---

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds .....	\$ (645,535)
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period .....	289,573
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds .....	48,660
Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. This is the amount by which proceeds exceeded repayments .....	59,643
Certain expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds .....	<u>(623,016)</u>
Change in the net assets of governmental activities .....	<u>\$ (870,675)</u>

See notes to basic financial statements.

**CITY OF CHICAGO, ILLINOIS  
NOTES TO BASIC FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2008**

---

**1) Summary of Significant Accounting Policies**

The City of Chicago (City), incorporated in 1837, is a "home rule" unit under State of Illinois (State) law. The City has a mayor-council form of government. The Mayor is the Chief Executive Officer of the City and is elected by general election. The City Council is the legislative body and consists of 50 members, each representing one of the City's 50 wards. The members of the City Council are elected through popular vote by ward for four-year terms.

The accounting policies of the City are based upon accounting principles generally accepted in the United States of America as prescribed by the Government Accounting Standards Board (GASB). For the year ended December 31, 2008, the City adopted GASB Statement No. 49, *Accounting and Financial Reporting for Pollution Remediation Obligations* and GASB Statement No. 50, *Pension Disclosures (an amendment of GASB Statements No. 25 and No. 27)*.

- a) **Reporting Entity** - The City includes the Chicago Public Library and the City-related funds of the Public Building Commission. The financial statements for the City have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP), applicable to governmental units, as required by the Municipal Code of Chicago (Code).

The City's financial statements blend the following legally separate component units because they are fiscally dependent on the City and perform services primarily for City employees:

The Municipal Employees' Annuity and Benefit Fund of Chicago is governed by a five-member board: three members are elected by plan participants and two are members ex-officio.

The Laborers' and Retirement Board Employees' Annuity and Benefit Fund of Chicago is governed by an eight-member board: two members are elected by plan participants, two are members ex-officio, two members are appointed by the City Department of Human Resources, one member is elected by retired plan participants and one member is elected by the local labor union.

The Policemen's Annuity and Benefit Fund of Chicago is governed by an eight-member board: four members are elected by plan participants and four are appointed by the Mayor.

The Firemen's Annuity and Benefit Fund of Chicago is governed by an eight-member board: four members are elected by plan participants and four are members ex-officio.

Financial statements for each of the pension plans may be obtained at the respective fund's office.

Related Organizations - City officials are responsible for appointing a voting majority of the members of the boards of other organizations, but the City's accountability for these organizations does not extend beyond making appointments and no fiscal dependency exists between the City and these organizations. Therefore, the Chicago Park District, Chicago Public Schools, Community College District No. 508, Chicago Housing Authority and the Chicago Transit Authority are deemed to be related organizations.

- b) **Government-wide and fund financial statements** - The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on user fees and charges for services.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identified with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use or

**CITY OF CHICAGO, ILLINOIS  
NOTES TO BASIC FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2008 - CONTINUED**

---

directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues. Separate fund financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

- c) **Measurement focus, basis of accounting, and financial statement presentation** - The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting* as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectable within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 90 days of the end of the current fiscal period with the exception of property tax revenue, which is deferred unless taxes are received within 60 days subsequent to year-end. Licenses and permits, charges for services and miscellaneous revenues are not considered to be susceptible to accrual and are recorded as revenues when received in cash. All other revenue items are considered to be measurable and available only when cash is received by the City. Expenditures generally are recorded when a liability is incurred, as under accrual basis of accounting, except for interest and principal on long-term debt, the long-term portion of compensated absences, claims and judgments and pension obligations.

The City reports the following major governmental funds:

**The General Fund** is the City's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.

**Federal, State and Local Grants Fund** accounts for the expenditures for programs, which include general government, health, public safety, transportation, aviation, cultural and recreational, and capital outlays. The majority of revenues are provided by several agencies of the Federal government, departments of the Illinois State government and City resources.

**Special Taxing Areas Fund** accounts for expenditures for special area operations and maintenance and for redevelopment project costs as provided by tax levies on special areas.

**Reserve Fund** accounts for a Mid-term and Long-term Reserve. The Mid-term is subject to appropriation; whereas the Long-term's principal is legally restricted. These reserves were created as a result of the Skyway Lease Transaction.

**Bond, Note Redemption and Interest Fund** accounts for the expenditures for principal and interest as provided by property tax, utility tax, sales tax, transportation tax, and investment income.

**Community Development and Improvement Projects Funds** account for proceeds of debt used to acquire property and finance construction and supporting services for various redevelopment projects.

**CITY OF CHICAGO, ILLINOIS  
NOTES TO BASIC FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2008 - CONTINUED**

---

The City reports the following major proprietary funds as business-type activities:

**Water Fund** accounts for the operations of the Chicago Water System (Water). The Water system purifies and provides Lake Michigan water for the City and 125 suburbs. The Water Fund operates two water treatment facilities and 12 pumping stations with a combined pumping capacity of 3,661 million gallons per day.

**Sewer Fund** accounts for the operations of the Wastewater Transmission System (Sewer). The Sewer system transports wastewater to the Metropolitan Water Reclamation District of Greater Chicago for processing and disposal. This service is provided for the residents and businesses of the City and certain suburban customers.

**Chicago Midway International Airport Fund** records operations of Chicago Midway International Airport (Midway) that provides regional travelers with access to airlines that generally specialize in low-cost, point-to-point, origin and destination passenger service. Midway Airport is conveniently located 10 miles from downtown Chicago. The Chicago Department of Aviation celebrated the completion of the historic Midway Airport Terminal Development Program in 2004, an eight year program that transformed Chicago's southwest side airport. Throughout the redevelopment of Midway, the airport experienced record-breaking growth, and today remains one of the fastest growing airports in the nation.

**Chicago-O'Hare International Airport Fund** records operations of Chicago-O'Hare International Airport (O'Hare), the primary commercial airport for the City. The airlines servicing the airport operate out of four terminal buildings. Three domestic terminal buildings, having a total of 157 gates, serve domestic flights and certain international departures. The International Terminal, having a total of 21 gates and five remote aircraft parking positions, serves the remaining international departures and all international arrivals requiring customs clearance.

**Chicago Skyway Fund** records operations of the Chicago Skyway (Skyway) which provides vehicle passage across the Calumet River, between the State of Indiana and the State of Illinois (State) through the operation of a tollway which consists of a 7.8-mile span connecting the Dan Ryan Expressway to the Indiana Toll Road. Facilities include a single toll plaza consisting of a central office, maintenance garage and toll collection area. In January 2005, the City entered into a long-term Concession and Lease Agreement of the Skyway, granting a private company the ability to operate and to collect toll revenue during the 99-year term of the agreement. The City received a one-time upfront payment of \$1.83 billion.

Additionally, the City reports the following fiduciary fund types:

**Pension Trust Funds** report expenditures for employee pensions as provided by employee and employer contributions and investment earnings.

**Agency Funds** account for transactions for assets held by the City as agent for certain activities or for various entities. Payroll deductions and special deposits are the primary transactions accounted for in these funds.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the GASB. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The City has elected not to follow subsequent private-sector guidance.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payment-in-lieu of taxes and other charges between the City's water, sewer, airports and skyway funds. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

**CITY OF CHICAGO, ILLINOIS  
NOTES TO BASIC FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2008 - CONTINUED**

---

Amounts reported as program revenues include: 1) charges to customers or applicants for goods and services, or privileges provided, or fines, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Certain indirect costs have been included as part of the program expenses reported for the various functional activities.

In the fund financial statements, proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water, sewer and skyway funds are charges to customers for sales and services. The airport funds principal operating revenues are derived from landing fees and terminal use charges as well as rents and concessions. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources, as they are needed.

The preparation of financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

**d) Assets, liabilities, and net assets or equity**

i) **Cash, Cash Equivalents and Investments** generally are held with the City Treasurer as required by the Code. Interest earned on pooled investments is allocated to participating funds based upon their average combined cash and investment balances. Due to contractual agreements or legal restrictions, the cash and investments of certain funds are segregated and earn and receive interest directly. The City uses separate escrow accounts in which certain tax revenues are deposited and held for payment of debt.

The Code permits deposits only to City Council-approved depositories, which must be regularly organized state or national banks and federal and state savings and loan associations, located within the City, whose deposits are federally insured.

Investments authorized by the Code include interest-bearing general obligations of the City, State and U.S. Government; U.S. Treasury bills and other noninterest-bearing general obligations of the U.S. Government purchased in the open market below face value; domestic money market funds regulated and in good standing with the Securities and Exchange Commission and tax anticipation warrants issued by the City. The City is prohibited by ordinance from investing in derivatives, as defined, without City Council approval. The City's four retirement plans are established by State law and administered by independent pension boards. Each independent pension board has authority to invest the assets of its respective plan subject to State law.

The City values its investments at fair value or amortized cost. U.S. Government securities purchased at a price other than par with a maturity of less than one year are reported at amortized cost.

Repurchase agreements can be purchased only from banks and certain other institutions authorized to do business in the State. The City Treasurer requires that securities that are pledged to secure these agreements have a market value equal to the cost of the repurchase agreements plus accrued interest.

**CITY OF CHICAGO, ILLINOIS  
NOTES TO BASIC FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2008 - CONTINUED**

---

Investments generally may not have a maturity date in excess of ten years from the date of purchase. Certain other investments are held in accordance with the specific provisions of applicable ordinances.

Cash equivalents include certificates of deposit and other investments with maturities of three months or less when purchased.

Deficit cash balances result in interfund borrowings from the aggregate of funds other than escrowed funds. Interest income and expense are generally not recognized on these interfund borrowings.

State statutes and the City's Pension Plans' policies permit lending Pension Plan securities to broker-dealers and other entities with a simultaneous agreement to return the collateral for the same securities in the future. Securities lent at year-end for cash collateral are presented as not categorized in the schedule of custodial credit risk; securities lent for securities collateral are classified according to the category for the collateral.

- ii) **Receivables and Payables** activity between funds are representative of services rendered, outstanding at the end of the fiscal year, and are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

All trade and property tax receivables are shown net of an allowance for uncollectibles. The allowance is based on historical trends. The estimated value of services provided but unbilled at year-end has been included in receivables.

- iii) **Inventory** includes government-wide inventories, which are stated at cost determined principally, using the average cost method. For proprietary funds, the costs of inventories are recorded as capital assets when used (consumption method). Governmental fund inventories are accounted for using the purchases method and are offset by a reservation of fund balance to indicate that they do not represent expendable available financial resources.
- iv) **Assets Held for Resale** includes land and buildings of \$29.1 million, recorded at lower of cost or market in the Federal, State and Local Grant Funds. These assets are purchased through the use of federal grants and City resources and are intended to be resold.
- v) **Restricted Assets** include certain proceeds of the City's enterprise fund revenue bonds, as well as certain resources set aside for their repayment. These assets are classified as restricted in the basic financial statements because they are maintained in separate bank accounts and their use is limited by applicable bond covenants.

The Skyway Lease Transaction legally requires the Long-term reserve's principal to be restricted.

The Water and Sewer funds maintain Rate Stabilization Accounts where any net revenues remaining after providing sufficient funds for all required deposits in the bond accounts may be transferred upon the direction of the City to be used for any lawful purpose of the specific fund.

The O'Hare and Midway funds maintain Passenger Facility Charge accounts as restricted as they are subject to Federal Aviation Administration regulation and approval, to finance specific eligible capital and debt related activities.

- vi) **Capital Assets**, which include property, plant, equipment, and infrastructure assets (e.g. roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets, or a network of assets, with an initial cost of more than \$5,000 (not rounded) and an estimated useful life

**CITY OF CHICAGO, ILLINOIS  
 NOTES TO BASIC FINANCIAL STATEMENTS  
 YEAR ENDED DECEMBER 31, 2008 - CONTINUED**

---

in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalization value of the assets constructed. The total interest expense (Governmental and Business Activities) incurred by the City during the current fiscal year was \$858.3 million, of which \$102.8 million was capitalized as part of the capital assets under construction projects in proprietary funds.

Property, plant, and equipment of the City are depreciated using the straight-line method, in the year subsequent to acquisition or when placed into service, over the following estimated useful lives:

Utility plant.....	25 - 100 years
Utility structures and improvements.....	50 - 100 years
Buildings and improvements.....	5 - 40 years
Airport runways, aprons, tunnels, taxiways, and paved roads.....	5 - 40 years
Bridge infrastructure.....	10 - 50 years
Lighting infrastructure.....	25 years
Street infrastructure.....	10 - 25 years
Transit infrastructure.....	10 - 40 years
Equipment (vehicle, office, and computer) .....	4 - 33 years

The City has a collection of artwork and historical treasures presented for public exhibition and education that are being preserved for future generations. The proceeds from sales of any pieces of the collection are used to purchase other acquisitions. A portion of this collection is not capitalized or depreciated as part of capital assets.

- vii) **Employee Benefits** are granted for vacation and sick leave, workers' compensation and health care. Unused vacation leave is accrued and may be carried over for one year. Sick leave is accumulated at the rate of one day for each month worked, up to a maximum of 200 days. Severance of employment terminates all rights to receive compensation for any unused sick leave. Sick leave pay is not accrued. Employee benefit claims outstanding, including claims incurred but not reported, are estimated and recorded in the government-wide, proprietary and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Employees are eligible to defer a portion of their salaries until future years under the City's deferred compensation plan created in accordance with Internal Revenue Code Section 457. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency. Third-party administrators who maintain the investment portfolio administer the Plan. The plan's assets have been placed in trust accounts with the plan administrators for the exclusive benefit of participants and their beneficiaries and are not considered assets of the City.

The City is subject to the State of Illinois Unemployment Compensation Act and has elected the reimbursing employer option for providing unemployment insurance benefits for eligible former employees. Under this option, the City reimburses the State for claims paid by the State. Expenditures for workers' compensation are recorded when paid in the governmental funds. A liability for these amounts is recorded in the government-wide, proprietary and fiduciary fund financial statements.

**CITY OF CHICAGO, ILLINOIS  
NOTES TO BASIC FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2008 - CONTINUED**

---

- viii) **Judgments and claims** are included in the government-wide financial statements and proprietary fund types in the fund financial statements. Uninsured claim expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. In the fund financial statements, expenditures for judgments and claims are recorded on the basis of settlements reached or judgments entered within the current fiscal year. Amounts that related to deferred compensatory time and reserves for questioned costs are treated the same way.
- ix) **Long-term obligations** are included in the government-wide financial statements and proprietary fund types in the fund financial statements. Long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the related debt, except in the case of refunding debt transactions where the amortization period is over the term of the refunding or refunded debt, whichever is shorter.

The City enters into interest rate swap agreements to modify interest rates on outstanding debt. Other than the net interest expenditures resulting from these arrangements, no amounts are recorded in the financial statements. All interest rate swaps and swaptions are approved by City Council.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received and discounts given on debt issued are reported as other financing sources or uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

Certain debt obligations are to be paid from sales tax, motor fuel or special area taxes.

Long-term purchase obligation represents an agreement with DuPage Water Commission to construct electrical generation facilities not to exceed \$15.0 million. The payment of the obligation will be in the form of credits against the charges for water supplied.

Long-term lease obligation represents the amount to be recognized as revenue on a straight line basis over the life of the Skyway and Parking Garages leases.

- x) **Fund equity** in the government-wide statements is classified as net assets and displayed in three components:
- (1) Invested in capital assets, net of related debt - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or any other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
  - (2) Restricted net assets - Consists of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or (2) are legally restricted through constitutional provisions or enabling legislation. Restricted net assets for governmental activities represent restrictions associated with the nonmajor special revenue funds. Restricted net assets for business activities are provided in Exhibit #7, Statement of Net Assets, Proprietary Funds.
  - (3) Unrestricted net assets - All other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

**CITY OF CHICAGO, ILLINOIS  
NOTES TO BASIC FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2008 - CONTINUED**

---

**2) Reconciliation of Government-wide and Fund Financial Statements**

**a) Explanation of certain differences between the governmental funds balance sheet and the government-wide statement of net assets.**

i) The governmental funds balance sheet includes a reconciliation between fund balance - total governmental funds and net assets - governmental activities as reported in the government-wide statement of net assets. One element of that reconciliation explains that "Other long-term assets are not available to pay for current-period expenditures and therefore are deferred in the funds." The details of this \$1,406.0 million are as follows (dollars in thousands):

Deferred revenue - property tax .....	\$ 1,195,772
Other assets - pension excess .....	225,759
Accounts payable - infrastructure retainage .....	<u>(15,497)</u>
 Net adjustment to increase fund balance - total governmental funds - to arrive at net assets - governmental activities .....	   <u>\$ 1,406,034</u>

ii) Another element of that reconciliation explains that "Certain liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds." The details of this \$11,320.8 million are as follows (dollars in thousands):

Long-term liabilities:	
Total bonds, notes and certificates payable .....	\$ 7,456,940
Pension obligation .....	2,874,722
Lease obligation .....	207,065
Pollution remediation.....	33,200
Claims and judgments .....	<u>609,230</u>
 Total Long-term liabilities .....	 11,181,157
 Bonds, notes and other obligations payable current .....	 (200,344)
Other assets - issuance costs .....	(61,638)
Accrued interest .....	4,718
Accrued and other liabilities - pension accrual .....	20,793
Accrued and other liabilities - other post employment benefits .....	269,275
Accrued and other liabilities - compensated absences .....	<u>106,827</u>
 Net adjustment to reduce fund balance - total governmental funds - to arrive at net assets - governmental activities .....	   <u>\$ 11,320,788</u>

**CITY OF CHICAGO, ILLINOIS  
NOTES TO BASIC FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2008 - CONTINUED**

**b) Explanation of certain differences between the governmental funds statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities.**

i) The governmental funds statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances - total governmental funds and changes in net assets - governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statements of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this \$289.6 million are as follows (dollars in thousands):

Capitalized asset expenditures .....	\$	669,287
Depreciation expense .....		(369,604)
Loss - disposal of equipment .....		(10,110)
		<u>          </u>
Net adjustment to increase net changes in fund balances - total governmental funds - to arrive at changes in net assets - governmental activities .....	\$	<u>289,573</u>

ii) Another element of that reconciliation states that "Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets." The details of this \$59.6 million are as follows (dollars in thousands):

Proceeds of debt .....	\$	(777,587)
Premium .....		(17,845)
Payment of refunded bond escrow agent .....		186,421
Principal retirement .....		656,805
Payment of cost of issuance .....		9,554
Interest expense .....		2,295
		<u>          </u>
Net adjustment to reduce net changes in fund balances - total governmental funds - to arrive at changes in net assets - governmental activities .....	\$	<u>59,643</u>

iii) A third element of that reconciliation states that "Certain expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds." The details of this \$623.0 million are as follows (dollars in thousands):

Claims and judgments .....	\$	(16,597)
Pension benefit liability .....		(488,565)
Other post employment benefits .....		(120,929)
Vacation .....		10,771
Lease obligations .....		(10,480)
Inventory .....		2,784
		<u>          </u>
Net adjustment to reduce net changes in fund balances - total governmental funds - to arrive at changes in net assets - governmental activities .....	\$	<u>(623,016)</u>

**CITY OF CHICAGO, ILLINOIS  
NOTES TO BASIC FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2008 - CONTINUED**

**3) Stewardship, Compliance and Accountability**

- a) **Annual Appropriation Budgets** are established for the General Fund and the Vehicle Tax, Pension, Chicago Public Library and certain Miscellaneous, Special Events, Tourism and Festivals and Health and Welfare nonmajor Special Revenue Funds, on a non-GAAP budgetary basis:
- i) Prior to November 15, the Mayor submits to the City Council a proposed budget of expenditures and the means of financing them for the next year.
  - ii) The budget document is available for public inspection for at least ten days prior to passage of the annual appropriation ordinance by the City Council, which is also required to hold at least one public hearing.
  - iii) Prior to January 1, the budget is legally enacted through passage of the appropriation ordinance.
  - iv) Subsequent to the enactment of the appropriation ordinance, the City Council has the authority to make necessary adjustments to the budget, which results in a change in total or individual appropriations. The legal level of budgetary control is designated in the budget by object grouped by purpose except for the Motor Fuel Tax Fund, which is subsequently re-appropriated by project. A separate Motor Fuel Tax Fund Report demonstrates compliance with annual and project-length budgets required by the State. The separately issued Supplement to the Comprehensive Annual Financial Report provides budgetary information for all other budgeted funds. Copies of this report are available upon request.
  - v) All annual appropriations unused and unencumbered lapse at year-end. Encumbered appropriations are carried forward to the following year. Project-length financial plans are adopted for Capital Project Funds. Appropriations for Debt Service Funds are established by bond ordinance.
- b) **Reconciliation of GAAP Basis to Budgetary Basis** - The City's budgetary basis of accounting used for budget vs. actual reporting differs from GAAP. For budgetary purposes, encumbrances are recorded as expenditures but are reflected as reservations of fund balances for GAAP purposes. For budgetary purposes, proceeds of long-term debt and transfers in are classified as revenues. For budgetary purposes prior years' resources used to cover current year budgetary expenditures are recorded as revenues. For GAAP purposes, proceeds of long-term debt and transfers out are treated as other financing sources. Provision for doubtful account expenditures are not budgeted. A reconciliation of the different basis of revenue and expenditure recognition for the year ended December 31, 2008 is as follows (dollars in thousands):

	<b>General Fund</b>
Revenues, GAAP Basis .....	\$ 2,875,771
Add:	
Proceeds of Debt .....	164,000
Transfers In .....	94,058
Prior Year's Surplus Utilized .....	1,147
	<hr/>
Revenues, Budgetary Basis .....	\$ 3,134,976
	<hr/>
Expenditures, GAAP Basis .....	\$ 3,107,284
Add:	
Transfers Out .....	25,193
Encumbered in 2008 .....	27,931
Deduct:	
Payments on Prior Years' Encumbrances .....	(17,541)
Provision for Doubtful Accounts.....	(7,891)
	<hr/>
Expenditures, Budgetary Basis .....	\$ 3,134,976
	<hr/>

**CITY OF CHICAGO, ILLINOIS  
NOTES TO BASIC FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2008 - CONTINUED**

- c) **Individual Funds over Budget** includes the Special Events, Tourism and Festivals Fund (\$1.3 million).
- d) **Individual Fund Deficits** include the Vehicle Tax Fund, Motor Fuel Tax Fund, the Special Events, Tourism, and Festivals Fund, which are Special Revenue Funds and the Chicago Skyway Fund, an Enterprise Fund, have fund deficits of \$12.5 million, \$3.3 million, \$1.9 million, and \$1,408.9 million, respectively, which management anticipates will be funded through operations.
- 4) **Restricted and Unrestricted Cash, Cash Equivalents and Investments**

a) **Investments** As of December 31, 2008, the City had the following Investments (dollars in thousands):

Investment Type	Investment Maturities (in Years)				Fair Value
	Less Than 1	1-5	6-10	More Than 10	
<b>City Funds</b>

i) **Interest Rate Risk** As a means of limiting its exposure to fair value losses arising from rising interest rates, the City's investment policy limits all securities so purchased, except tax anticipation warrants, municipal bonds, notes, commercial paper or other instruments representing a debt obligation of the City, shall show on their face that they are fully payable as to principal and interest, where applicable, if any, within two years from the date of purchase.

**CITY OF CHICAGO, ILLINOIS  
NOTES TO BASIC FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2008 - CONTINUED**

ii) *Credit Risk* The Code limits investments in commercial paper to banks whose senior obligations are rated in the top two rating categories by at least two national rating agencies and who are required to maintain such rating during the term of such investment. The Code also limits investments to domestic money market mutual funds regulated by, and in good standing with, the Securities and Exchange Commission. Certificates of Deposit are also limited by the Code to national banks which provide collateral of at least 105 percent by marketable U.S. government securities marked to market at least monthly; or secured by a corporate surety bond issued by an insurance company licensed to do business in Illinois and having a claims-paying rating in the top rating category, as rated by a nationally recognized statistical rating organization maintaining such rating during the term of such investment. The following schedule summarizes the City's and Pension Trust Funds exposure to credit risk (dollars in thousands):

<u>Quality Rating</u>	<u>City</u>	<u>Pension Plans</u>
Aaa/AAA.....	\$ 5,017,781	\$ 576,126
Aa/AA.....	31,300	33,247

Baa/BBB.....	-	244,777
Ba/BB.....	-	28,238
B/B.....	-	14,089
Caa/CCC.....	-	8,224
Ca.....	-	117
CC/C.....	-	1,397
D/D.....	-	2,719
Not Rated.....	-	545,136
Not Applicable.....	81,466	755,054
Total Funds.....	<u>\$ 5,130,547</u>	<u>\$ 2,466,703</u>

iii) *Custodial Credit Risk – Cash and Certificates of Deposit* This is the risk that in the event of a bank failure, the City's deposits may not be returned. The City's Investment Policy states that in order to protect the City's deposits, depository institutions are to maintain collateral pledges on City deposits during the term of the deposit of at least 105 percent of marketable U.S. government, or approved securities or surety bonds, issued by top-rated insurers. Collateral is required as security whenever deposits exceed the insured limits of the FDIC. The bank balance of cash and certificates of deposit with the City's various municipal depositories was \$372.2 million. Of the bank balance, 100 percent was either insured or collateralized with securities held by City agents in the City's name. The remainder was uninsured and uncollateralized.

iv) *Custodial Credit Risk – Investments* For an investment, this is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. Of the investment in corporate bonds of \$128.5 million the City has no custodial credit risk exposure because the related securities are insured, registered and held by the City.

**CITY OF CHICAGO, ILLINOIS**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**YEAR ENDED DECEMBER 31, 2008 - CONTINUED**

v) *Foreign Currency Risk* - In the case of the Pension Trust Funds, is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The risk of loss is managed by limiting its exposure to fair value loss by requiring their international securities managers to maintain diversified portfolios. The following schedule summarizes the Pension Trust Funds exposure to foreign currency risk (dollars in thousands):

<b>Foreign Currency Risk</b>	
Australian dollar.....	\$ 52,241

	<u>\$ 16,095,245</u>

**5) Property Tax**

The City's property tax becomes a lien on real property on January 1 of the year it is levied. The Cook County Assessor (Assessor) is responsible for the assessment of all taxable real property within Cook County (County), except for certain railroad property assessed directly by the State. The County Board has established a triennial cycle of reassessment in which one-third of the County will be reassessed each year on a repeating schedule established by the Assessor.

Property in the County is separated into nine classifications for assessment purposes. After the Assessor establishes the fair market value of a parcel of land, that value is multiplied by one of the classification percentages to arrive at the assessed valuation (Assessed Valuation) for that parcel. These percentages range from 16.0 percent for certain residential, commercial, and industrial property to 38.0 percent for other commercial and industrial property.

The Illinois Department of Revenue has the statutory responsibility of ensuring uniformity of real property assessments throughout the State. Each year, the Department of Revenue furnishes the county clerks with an adjustment factor to equalize the level of assessment among counties. This factor (Equalization Factor) is then applied to the Assessed Valuation to compute the valuation of property to which a tax rate will be applied (Equalized Assessed Valuation). The County Clerk adds the Equalized Assessed Valuation of all real property in the County to the valuation of property assessed directly by the State (to which the Equalization Factor is not applied) to arrive at the base amount (Assessment Base) used in calculating the annual tax rates.

The County Clerk computes the annual tax rate by dividing the levy by the Assessment Base and then computes the rate for each parcel of real property by aggregating the tax rates of all governmental units having jurisdiction over that particular parcel. The County Treasurer then issues the tax bills. Property taxes are deposited with the County Treasurer, who remits to the City its respective share of the collections. Taxes levied in one year become due and payable in two installments during the following year on March 1 and August 1 or 30 days from mailing of tax bills if later than July 1. The first installment is estimated and is one-half of the prior year's tax bill. The second installment is based on the current levy, assessment and equalization and also reflects any changes from the prior year.

**CITY OF CHICAGO, ILLINOIS  
NOTES TO BASIC FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2008 - CONTINUED**

The City Council has adopted an ordinance beginning in 1994, limiting the City's aggregate property tax levy to an amount equal to the prior year's aggregate property tax levy plus the lesser of (a) five percent or (b) the percentage increase in the annualized Consumer Price Index, all as defined in the ordinance. The ordinance provides a safe harbor for that portion of any property tax debt service levy equal to the aggregate interest and principal payments on the City's general obligation bonds and notes during the 12-month period ended January 1, 1994, subject to annual increase in the manner described above for the aggregate levy, all as provided by the ordinance. Increases in the debt service portion of each levy may, however, reduce amounts available within such levy to finance operations.

**6) Interfund Balances and Transfers**

a) The following balances at December 31, 2008 represent due from/to balances among all funds (dollars in thousands):

<u>Fund Type/Fund</u>	<u>Due From</u>	<u>Due To</u>
Governmental activities:		
General.....	\$ 238,205	\$ 312,247
Federal, State and Local Grants.....	35,000	91,150
Special Taxing Areas.....	7,964	11,042
Reserve.....	-	-
Bond, Note Redemption and Interest.....	24,798	11,030

Nonmajor governmental funds.....	<u>100,426</u>	<u>62,376</u>
Total Governmental activities.....	<u>473,761</u>	<u>513,640</u>
Business-type activities:		
Water.....	20,312	35,154
Sewer.....	27,871	7,037
Chicago Midway International Airport.....	3,176	4,143
Chicago-O'Hare International Airport.....	17,371	4,740
Chicago Skyway.....	<u>1</u>	<u>27</u>
Total Business-type activities.....	<u>68,731</u>	<u>51,101</u>
Fiduciary activities:		
Pension Trust.....	<u>22,249</u>	<u>-</u>
Total Fiduciary activities.....	<u>22,249</u>	<u>-</u>
Total.....	<u>\$ 564,741</u>	<u>\$ 564,741</u>

The balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system and (3) payments between funds are made.

**CITY OF CHICAGO, ILLINOIS  
 NOTES TO BASIC FINANCIAL STATEMENTS  
 YEAR ENDED DECEMBER 31, 2008 - CONTINUED**

b) The following balances at December 31, 2008 represent interfund transfers among all funds (dollars in thousands):

<u>Fund Type/Fund</u>	<u>Transfer In</u>	<u>Transfer Out</u>
Governmental activities:		
General.....	\$ 94,058	\$ 25,193
Federal, State and Local Grants.....	-	-
Special Taxing Areas.....	127,694	32,604
Reserve.....	-	78,057
Bond, Note Redemption and Interest.....	-	2,750
Community Development and Improvement Projects....	10,567	96
Nonmajor governmental funds.....	<u>61,129</u>	<u>154,748</u>
Total Governmental activities.....	<u>293,448</u>	<u>293,448</u>

Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and to move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due.

	<u>235,654</u>
Total depreciation expense - business-type activities.....	<u>\$ 235,654</u>

8) **Leases**

a) **Operating Leases**

The City leases building and office facilities under noncancelable operating leases. Total costs for such leases were approximately \$18.4 million for the year ended December 31, 2008. The future minimum lease payments for these leases are as follows (dollars in thousands):

2009.....	\$ 17,262
2010.....	16,477
2011.....	16,033
2012.....	15,065
2013.....	14,645
2014 - 2018.....	16,084
	<u>95,566</u>
Total Future Rental Expense.....	<u>\$ 95,566</u>

b) **Capital Leases**

During 2003 the City entered into lease and lease back agreements with third parties pertaining to 911 Center Qualified Technological Equipment (QTE), with a book value of \$143.3 million at December 31, 2003. Under the QTE lease agreement, which provides certain cash and tax benefits to the third party, the City entered into a long-term lease for applicable assets back to the City under a sublease. Under the sublease, the City is required to make future minimum lease payments.

**CITY OF CHICAGO, ILLINOIS  
NOTES TO BASIC FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2008 - CONTINUED**

During 2005 the City entered into sale and lease back agreements with third parties pertaining to the City owned portion of a rapid transit line with a book value of \$430.8 million at December 31, 2005. Under the lease agreement, which provides certain cash and tax benefits to the third party, the City entered into a long-term lease for applicable assets back to the City under a sublease. Under the sublease, the City is required to make future minimum lease payments.

The future minimum payments for these leases are as follows (dollars in thousands):

Year Ending December 31,	<u>Total</u>
2009.....	\$ 37,838
2010.....	10,303
2011.....	10,215
2012.....	12,731
2013.....	9,104
2014 - 2018.....	54,977
2019 - 2023.....	86,167
2024 - 2028.....	8,858
2029 - 2032.....	<u>165,164</u>
 Total Minimum Future Lease Payments.....	 395,357
Less Interest.....	<u>188,292</u>
 Present Value of Minimum Future Lease Payments.....	 <u>\$ 207,065</u>

**c) Long-term Lease Obligation**

In January 2005, the City completed a long-term concession and lease of the Skyway. The concession granted a private company the right to operate the Skyway and to collect toll revenue from the Skyway for the 99-year term of the operating lease. The City received an upfront payment of \$1.83 billion; a portion of the payment (\$446.3 million) advance refunded all of the outstanding Skyway bonds. The City initially recognized a deferred liability of \$1.83 billion that will be amortized and recognized as revenue over the 99-year term of the operating lease. In 2005, the City recognized \$18.5 million of revenue related to this transaction and will recognize \$18.5 million for each subsequent year through 2103. Skyway land, bridges, other facilities and equipment continue to be reported on the Statement of Net Assets and will be depreciated, as applicable, over their useful lives.

In December 2006, the City completed a long-term concession and lease of the City's downtown underground public parking system. The concession granted a private company the right to operate the garages and collect parking and related revenues for the 99-year term of the operating lease. The City received an upfront payment of \$563.0 million of which \$347.8 million was simultaneously used to purchase three of the underground garages from the Chicago Park District. The City initially recognized a deferred liability that will be amortized and recognized as revenue over the term of the lease. In 2007, the City recognized \$5.7 million of revenue and will continue to recognize \$5.7 million for each subsequent year through 2105.

**CITY OF CHICAGO, ILLINOIS  
NOTES TO BASIC FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2008 - CONTINUED**

**d) Lease Receivables**

Most of the O'Hare land, buildings and terminal space are leased under operating lease agreements to airlines and other tenants. The following is a schedule of the minimum future rental income on noncancellable operating leases as of December 31, 2008 (dollars in thousands):

2009.....	\$	28,399
2010.....		16,433
2011.....		15,951
2012.....		15,708
2013.....		15,668
2014 - 2018.....		77,758
2019 - 2023.....		7,986
2024 - 2028.....		9,275
2029 - 2033.....		9,564
		9,564
Total Minimum Future Rental Income.....	\$	196,742

Contingent rentals that may be received under certain leases based on the tenants' revenues or fuel flow are not included in minimum future rental income. Rental income for O'Hare, consisting of all rental and concession revenues except ramp rentals and automobile parking, amounted to \$355.1 million, including contingent rentals of \$90.3 million.

Most of the Midway land and terminal space is leased under operating lease agreements to airlines and other tenants. The following is a schedule of the minimum future rental income on noncancellable operating leases as of December 31, 2008 (dollars in thousands):

2009.....	\$	10,603
2010.....		10,460
2011.....		10,460
2012.....		7,971
2013 - 2014.....		437
		437
Total Minimum Future Rental Income.....	\$	39,931

Contingent rentals that may be received under certain leases based on tenants' revenues are not included in minimum future rental income. Rental income for Midway, consisting of all rental and concession revenues except ramp rentals and automobile parking, amounted to \$62.3 million, including contingent rentals of \$25.8 million.

**9) Short-term Debt**

**Matured bonds** represent principal due on coupon bonds in which the coupons have not been presented for payment. For the year ended December 31, 2008, there was minor activity; the balance remained at \$0.7 million.

**CITY OF CHICAGO, ILLINOIS

The Pension obligation liability will be liquidated through a Special Revenue Fund (Pension Fund) as provided by tax levy and State Personal Property Replacement Tax revenues.

**CITY OF CHICAGO, ILLINOIS  
NOTES TO BASIC FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2008 - CONTINUED**

---

**b) Issuance of New Debt**

**i) General Obligation Notes**

The General Obligation Tender Notes, Series 2008 (\$70.4 million) were sold in February 2008 at an initial short-term intermediate rate of 1.05 percent through February 5, 2009. The notes mature no later than February 19, 2010. The Series 2008 notes were issued to meet cash flow requirements of the City's Library Funds; the notes are payable from tax collections in the following year or from any other resources legally available to the City. Principal payments for the notes do not require the current appropriation and expenditure of Governmental Fund financial resources.

At the discretion of the City, the notes may bear interest at a weekly, short-term intermediate or fixed rate. Interest on notes in the short-term intermediate mode is payable on the first business day immediately following the short-term intermediate rate period. Interest on the notes in the weekly mode is payable on the first business day of each month. Interest on notes in the fixed mode is payable on each January 31 and July 31.

The City has appointed a remarketing agent for the notes in the weekly and short-term intermediate modes. The remarketing agent will use its best efforts to resell the notes at favorable rates following either an optional or mandatory tender. In the event the remarketing agent is unable to resell the notes, the City has obtained an unconditional, irrevocable letter of credit which may be drawn upon for the purchase of the notes until the remarketing agent is able to resell the Series 2008 notes.

The letter of credit securing the Series 2008 notes totals \$71.6 million and terminates on the earliest of February 22, 2010 or upon redemption of the notes. Advances under the letter of credit (none at December 31, 2008) are due on the earliest of February 22, 2011 or one year after the redemption of the notes. Advances bear interest from the date of advance through the 7<sup>th</sup> day at the greater of the prime rate or the sum of the federal funds rate plus one-half percent per annum (Base Rate). Thereafter until due and payable, advances bear interest at the Base Rate plus one percent. Upon the occurrence of an event of default, the interest rate per annum shall equal the Base Rate plus three percent and interest shall be payable upon demand. The maximum rate of interest cannot exceed 15.0 percent. The letter of credit was issued by a third-party financial institution that is expected to be financially capable of honoring its agreements.

During 2008, the City issued \$165.5 million in general obligation commercial paper notes for certain operating uses.

NOTES TO BASIC FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2008 - CONTINUED**

---

**ii) General Obligation Bonds**

General Obligation Bonds, Project and Refunding Series 2008A and B (\$473.7 million) were sold at a premium in June 2008. The bonds have interest rates ranging from 3.0 percent to 5.765 percent and maturity dates from January 1, 2009 to January 1, 2037. Net proceeds of \$488.2 million will be used to finance infrastructure improvements; transportation improvements; grants or loans to assist not-for-profit organizations or educational or cultural institutions; or to assist other municipal corporations or units of local government, or school districts; cash flow needs of the City; acquisition of personal property; acquisition, demolition, remediation or improvement of real property for industrial, commercial or residential purposes; constructing, equipping, altering and repairing various municipal facilities including fire stations, police stations, libraries, senior and health centers and other municipal facilities; enhancement of economic development within the City by making grants or deposits to secure obligations of not-for-profit or for-profit organizations doing or seeking to do business in the City; the funding of litigation judgments or settlement agreements involving the City, including escrow accounts or other reserves needed for such purposes; payment of certain pension contributions; providing for facilities, services, and equipment to protect and enhance public safety; and other uses permitted by the Ordinance (\$90.0 million); and to retire Variable Rate Demand Bonds Project Series 1999B and 2002B (\$209.9 million); and to advance refund certain maturities of general obligation bonds outstanding (\$182.7 million); and to fund capitalized interest (\$5.6 million). The advance refunding of the bonds decreased the City's total debt service payments by \$22.5 million and resulted in an economic gain (difference between the present values of the debt service on the old and new debt) of \$4.15 million.

With respect to the General Obligation Variable Rate Demand Bonds, Project and Refunding Series 2003B (\$202.5 million) the City entered into a constant maturity swap overlay.

**iii) Motor Fuel Tax Revenue Bonds**

Motor Fuel Tax Revenue Bonds, Project and Refunding, Series 2008A-B (\$66.6 million) were sold at a discount in March 2008. The bonds have interest rates ranging from 4.0 percent to 5.0 percent and maturity dates from January 1, 2015 to January 1, 2038. Net proceeds of \$63.7 million will be used to finance projects authorized under the Use of Motor Fuel Tax Act (\$60.0 million) and to advance refund certain maturities of the outstanding Motor Fuel Tax Revenue Bonds, Series 1993 (\$3.7 million). The advance refunding of the bonds increased the City's total debt service payments by \$1.3 million and resulted in an economic loss (difference between the present values of the debt service on the old and new debt) of \$.1 million.

**iv) Tax Increment Allocation Bonds and Notes**

As part of the City's Tax Increment Financing Neighborhood Improvement Program, the City entered into Tax Increment Allocation Revenue Note (Division/Homan redevelopment Project Area) Taxable Series 2006 in July 2006. At that time, the City drew down \$.5 million from the available \$1.0 million note at an interest rate of 7.422 percent with a final maturity of August 1, 2013. The remaining \$.5 million was received in June 2008.

**v) Enterprise Fund Revenue Bonds and Notes**

Chicago O'Hare International Airport Third Lien Revenue Bonds, Series 2008A-D (\$779.9 million) were sold at a premium in January 2008. The bonds have interest rates ranging from 4.0 percent to 5.0 percent and maturity dates ranging from January 1, 2010 to January 1, 2038. Net proceeds of \$804.0 million will be used to finance capital improvements (\$496.3 million) and repay a portion of the City's outstanding commercial paper notes (\$241.8 million) and to fund capitalized interest (\$65.9 million).

**CITY OF CHICAGO, ILLINOIS**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**YEAR ENDED DECEMBER 31, 2008 - CONTINUED**

---

Chicago O'Hare International Airport Passenger Facility Charge Revenue Refunding Bonds, Series 2008A (\$111.4 million) were sold at a premium in January 2008. The bonds have interest rates ranging from 4.0 percent to 5.0 percent and maturity dates ranging from January 1, 2012 to January 1, 2016. Net proceeds of \$119.4 million and \$17.9 million of other funds will be used to advance refund all of the Chicago O'Hare International Airport Passenger Facility Charge Revenue Refunding Bonds, Series 1996A bonds outstanding (\$137.3 million). The advance refunding of the bonds decreased the City's total debt service payments by \$21.8 million and resulted in an economic gain (difference between the present values of the debt service on the old and new debt) of \$25.4 million.

During 2008, \$35.6 million of Chicago-O'Hare International Airport Commercial Paper Notes, Series A and B were issued. The proceeds were used to finance portions of the costs of authorized airport projects and to repay the expenses of issuing the notes.

Second Lien Water Revenue Project and Refunding Bonds, Series 2008 (\$549.9 million) were sold at a premium in April 2008. The bonds have interest rates ranging from 4.0 percent to 5.25 percent and maturity dates ranging from November 1, 2009 to November 1, 2038. Net proceeds of \$563.7 million will be used to finance certain capital improvements and extensions of the water system of the City (\$318.0 million), advance refund certain maturities of water revenue bonds outstanding (\$188.7 million) and repay the water system's outstanding commercial paper notes (\$57.0 million). The advance refunding of the bonds decreased the City's total debt service payments by \$14.2 million and resulted in an economic loss (difference between the present values of the debt service on the old and new debt) of \$7.1 million.

Second Lien Wastewater Transmission Revenue Bonds, Series 2008A (\$167.6 million) were sold at a discount in November 2008. The bonds have interest rates ranging from 3.5 percent to 5.5 percent and maturity dates ranging from January 1, 2010 to January 1, 2033. Net proceeds of \$161.7 million will be used to finance certain capital improvements and extensions of the wastewater transmission system of the City (\$150.0 million) and fund a deposit to the Debt Service Reserve Account for the bonds (\$11.7 million).

Second Lien Wastewater Transmission Revenue Refunding Bonds, Series 2008C (\$332 million) were sold in October 2008. The bonds were issued in three sub series, each at variable rate and maturing January 1, 2039. Proceeds will be used to refund the Second Lien Wastewater Transmission Variable Rate Revenue Bonds, Series 2004A and to pay the costs of issuance.

**Financial Market Related Conversions**

The global economic downturn has adversely impacted the City's variable rate debt. In 2008 global financial markets incurred substantial declines in value due to the credit crisis. Monoline insurers' credit ratings came under review due to subprime mortgage exposure resulting in downgrades by the major rating agencies. As a result, credit spreads increased on the City's variable rate debt, especially with insured bonds; therefore the City refinanced or converted many of its variable rate debt issues. In 2008, the City utilized liquidity facilities to convert five variable rate issues in the amount of \$1.217 billion and thereby removing the monoline insurers. In 2008, various bonds series were unable to be remarketed and went into bank bond mode as of December 31, 2008. The annual requirements to amortize debt outstanding reflect the repayment terms in effect as of December 31, 2008.

**CITY OF CHICAGO, ILLINOIS  
NOTES TO BASIC FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2008 - CONTINUED**

c) **Annual requirements** listed below for each year include amounts payable January 1 of the following year. Bonds maturing and interest payable January 1, 2009 have been excluded because funds for their payment have been provided for. Annual requirements to amortize debt outstanding as of December 31, 2008 are as follows (dollars in thousands):

Year Ending December 31,	General Obligation		Installment Purchase		Tax Increment	
	Principal	Interest	Principal	Interest	Principal	Interest

d) **Derivatives**

i) **Pay-Fixed, Receive-Variable Interest Rate Swaps**

- (1) *Objective of the swaps.* In order to protect against the potential of rising interest rates, the City has entered into nine separate pay-fixed, receive-variable interest rate swaps at a cost less than what the City would have paid to issue fixed-rate debt.
- (2) *Terms, fair values, and credit risk.* The terms, including the fair values and credit ratings of the outstanding swaps as of December 31, 2008, are as follows. The notional amounts of the swaps match the principal amounts of the associated debt. The City's swap agreements contain scheduled reductions to outstanding notional amounts that are expected to approximately follow scheduled or anticipated reductions in the associated "bonds payable" category. Under the swaps, the City pays the counterparty a fixed payment and receives a variable payment computed according to the London Interbank Offered Rate (LIBOR) and/or The Securities Industry and Financial Markets Association (SIFMA) Municipal Swap Index (dollars in thousands):

**CITY OF CHICAGO, ILLINOIS**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**YEAR ENDED DECEMBER 31, 2008 - CONTINUED**

---

- (3) *Fair Value.* As of December 31, 2008, the swaps had a negative fair value of \$442.2 million. As per industry convention, the fair values of the City's outstanding swaps were estimated using the zero-coupon method. This method calculates the future net settlement payments required by the swap, assuming that the forward rates implied by the yield curve correctly anticipate future spot rates. These payments are then discounted using the spot rates implied by the current yield curve for hypothetical zero-coupon bonds due on the date of each future net settlement on the swap. Because interest rates are below the Fixed Rate Paid, the City's swaps had negative values.
- (4) *Credit Risk.* The City is exposed to credit risk (counterparty risk) through the counterparties with which it enters into agreements. If minimum credit rating requirements are not maintained, the counterparty is required to post collateral to a third party. This protects the City by mitigating the credit risk, and therefore the ability to pay a termination payment, inherent in a swap. Collateral on all swaps is to be in the form of cash or Eligible Collateral held by a third-party custodian. Upon credit events, the swaps also allow transfers, credit support, and termination if the counterparty is unable to meet the said credit requirements.
- (5) *Basis Risk.* Basis risk refers to the mismatch between the variable rate payments received on a swap contract and the interest payment actually owed on the bonds. The two significant components driving this risk are credit and SIFMA/LIBOR ratios. Credit may create basis risk because the City's bonds may trade differently than the swap index as a result of a credit change in the City. SIFMA/LIBOR ratios (or spreads) may create basis risk. With percentage of LIBOR swaps, if the City's bonds trade at a higher percentage of LIBOR over the index received on the swap, basis risk is created. This can occur due to many factors including, without limitation, changes in marginal tax rates, tax-exempt status of bonds, and supply and demand for variable rate bonds. The City is exposed to basis risk on all swaps except those that are based on Cost of Funds, which provide cash flows that mirror those of the underlying bonds. For all other swaps, if the rate paid on the bonds is higher than the rate received, the City is liable for the difference. The difference would need to be available on the debt service payment date and it would add additional underlying cost to the transaction.
- (6) *Tax Risk.* The swap exposes the City to tax risk or a permanent mismatch (shortfall) between the floating rate received on the swap and the variable rate paid on the underlying variable-rate bonds due to tax law changes such that the federal or state tax exemption of municipal debt is eliminated or its value reduced. There have been no tax law changes since the execution of the City's swap transactions.
- (7) *Termination Risk.* The risk that the swap could be terminated as a result of certain events including a ratings downgrade for the issuer or swap counterparty, covenant violation, bankruptcy, payment default or other defined events of default. Termination of a swap may result in a payment made by the issuer or to the issuer depending upon the market at the time of termination.
- (8) *Swap payments and associated debt.* Bonds maturing and interest payable January 1, 2009 have been excluded because funds for their payment have been provided for. As of December 31, 2008, debt service requirements of the City's outstanding variable-rate debt and net swap payments, assuming current interest rates remain the same, for their term are as follows (dollars in thousands):

**CITY OF CHICAGO, ILLINOIS  
NOTES TO BASIC FINANCIAL STATEMENTS

ii) **Swaptions**

(1) *Objective of the swaptions.* The City entered into several swaption contracts that provided the City upfront payments totaling \$42.1 million. The term swaption refers to the City selling an option to a counterparty to execute a swap at a certain date in the future if certain conditions exist. If the conditions do not exist, the counterparty will not execute the option, no swaptions have been exercised. In the event the options are executed and the City enters into a fixed to floating rate swap, the City would be exposed to the risks as described under Swaps.

(2) *Terms.* The terms, including fair values of the swaptions as of December 31, 2008, are as follows (dollars in thousands):

Associated Bond Issue	Notional Amounts	Trade Date	Variable Rate Paid	Fixed Rate Received	Fair Values	Swap Termi- nation Date	Up-Front Payment

---

- (3) *Fair value.* As of December 31, 2008, the swaptions had a negative fair value of \$25.0 million. As per industry convention, the fair values of the City's outstanding swaptions were estimated using the zero-coupon method. This method calculates the future net settlement payments required by the swap, assuming that the forward rates implied by the yield curve correctly anticipate future spot rates. These payments are then discounted using the spot rates implied by the current yield curve for hypothetical zero-coupon bonds due on the date of each future net settlement on the swap. Because interest rates are below the Fixed Rate Received, the City's swaptions had negative values. The negative value is also driven by the upfront payment received by the City upon execution of the swaption agreement.
- (4) *Credit Risk.* The City is exposed to credit risk (counterparty risk) through the counterparties with which it enters into agreements. If minimum credit rating requirements are not maintained, the counterparty is required to post collateral to a third party. This protects the City by mitigating the credit risk, and therefore the ability to pay a termination payment, inherent in a swap. Collateral on all swaptions is to be in the form of cash or Eligible Collateral held by a third-party custodian. Upon credit events, the swaptions also allow transfers, credit support, and termination if the counterparty is unable to meet the said credit requirements.
- (5) *Basis Risk.* Basis risk refers to the mismatch between the variable rate payments received on a swap contract and the interest payment actually owed on the bonds. The two significant components driving this risk are credit and SIFMA/LIBOR ratios. Credit may create basis risk because the City's bonds may trade differently than the swap index as a result of a credit change in the City. SIFMA/LIBOR ratios (or spreads) may create basis risk. With percentage of LIBOR swaps, if the City's bonds trade at a higher percentage of LIBOR over the index received on the swap, basis risk is created. This can occur due to many factors including, without limitation, changes in marginal tax rates, tax-exempt status of bonds, and supply and demand for variable rate bonds. The City is exposed to basis risk on all swaptions except those that are based on Cost of Funds, which provide cash flows that mirror those of the underlying bonds. For all other swaptions, if the rate paid on the bonds is higher than the rate received, the City is liable for the difference. The difference would need to be available on the debt service payment date, and it would add additional underlying cost to the transaction.
- (6) *Tax Risk.* The swap exposes the City to tax risk or a permanent mismatch (shortfall) between the floating rate received on the swap and the variable rate paid on the underlying variable-rate bonds due to tax law changes such that the federal or state tax exemption of municipal debt is eliminated or its value reduced. There have been no tax law changes since the execution of this swap transaction.
- (7) *Termination Risk.* The risk that the swap could be terminated as a result of certain events including a ratings downgrade for the issuer or swap counterparty, covenant violation, bankruptcy, payment default or other defined events of default. Termination of a swap may result in a payment made by the issuer or to the issuer depending upon the market at the time of termination.

**e) Debt Covenants**

- i) **Water Fund** - The ordinances authorizing the issuance of outstanding Water Revenue Bonds provide for the creation of separate accounts into which net revenues, as defined, or proceeds are to be credited, as appropriate. The ordinances require that net revenues available for bonds, as adjusted, equal 120 percent of the current annual debt service on the outstanding senior lien bonds and that City management maintains all covenant reserve account balances at specified amounts. The above requirements were met at December 31, 2008. The Water Rate Stabilization account had a balance in restricted assets of \$51.4 million at December 31, 2008.

**CITY OF CHICAGO, ILLINOIS**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**YEAR ENDED DECEMBER 31, 2008 - CONTINUED**

---

The ordinances authorizing the issuance of outstanding Second Lien Water Revenue Bonds provide for the creation of separate accounts into which monies will be deposited, as appropriate. The ordinances require that net revenues are equal to the sum of the aggregate annual debt service requirements for the fiscal year of the outstanding senior lien bonds and 110 percent of the aggregate annual debt service requirements of the outstanding second lien bonds. This requirement was met at December 31, 2008.

- ii) **Sewer Fund** - The ordinances authorizing the issuance of outstanding Wastewater Transmission Revenue Bonds provide for the creation of separate accounts into which net revenues, as defined, or proceeds are to be credited, as appropriate. The ordinances require that net revenues available for bonds equal 115 percent of the current annual debt service requirements on the outstanding senior lien bonds. This requirement was met at December 31, 2008. The Sewer Rate Stabilization account had a balance in restricted assets of \$14.6 million at December 31, 2008.

The ordinances authorizing the issuance of outstanding Second Lien Wastewater Transmission Revenue Bonds provide for the creation of separate accounts into which moneys will be deposited, as appropriate. The ordinances require that net revenues equal 100 percent of the sum of the current maximum annual debt service requirements of the outstanding senior lien bonds and the maximum annual debt service requirements of the second lien bonds. This requirement was met at December 31, 2008.

- iii) **Chicago Midway International Airport Fund** - The master indenture securing the issuance of Chicago Midway International Airport Revenue Bonds requires that the City set rates and charges for the use and operation of Midway so that revenues, together with any other available monies and the cash balance held in the Revenue Fund on the first day of such year not required to be deposited in any fund or account, will be at least sufficient (a) to provide for the operation and maintenance expenses for the year and (b) to provide for the greater of (i) the amounts needed to be deposited into the First and Junior Lien Debt Service Fund, the Operations & Maintenance Reserve Account, the Working Capital Account, the First Lien Debt Service Reserve Fund, the Repair and Replacement Fund, and the Special Project Fund and (ii) an amount not less than 125 percent of the Aggregate First Lien Debt Service for such fiscal year reduced by an amount equal to the sum of any amount held in any capitalized interest account for disbursement during such fiscal year to pay interest on First Lien Bonds. These requirements were met at December 31, 2008.
- iv) **Chicago-O'Hare International Airport Fund** - In 1983, the City Council adopted the General Airport Revenue Bond ordinance authorizing the issuance and sale of Chicago-O'Hare International Airport General Airport Revenue Bonds in unlimited series for the purpose of financing the cost of improvements and expansion of O'Hare and to redeem its existing outstanding bond obligations. The ordinance further permits the issuance of second lien notes, bonds and other obligations which are payable from, and secured by, a pledge of amounts deposited in the junior lien obligation debt service account created under the ordinance. The ordinance requires that net revenues in each year equal not less than the sum of (i) the amount required to be deposited for such year in the debt service reserve fund, the maintenance reserve fund, the special capital projects fund and the junior lien debt service fund, and (ii) 110 percent of the aggregate first lien and second lien debt service for the bond year commencing during such fiscal year reduced by an amount equal to the sum of any amount held in any capitalized interest account for disbursement during such fiscal year to pay interest on bonds. This requirement was met at December 31, 2008. The ordinance provides for the creation of separate accounts that are to be credited with revenues in a specified priority. At the end of each year, any excess funds over amounts required in accounts other than Special Capital Projects, Emergency Reserve and Airport Development accounts are reallocated with the following year's revenues.

**CITY OF CHICAGO, ILLINOIS  
NOTES TO BASIC FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2008 - CONTINUED**

---

The Master Indenture of Trust securing Chicago-O'Hare International Airport Third Lien Obligations requires that Revenues in each Fiscal Year, together with Other Available Moneys deposited with the Trustee with respect to that Fiscal Year and any cash balance held in the Revenue Fund on the first day of that Fiscal Year not then required to be deposited in any Fund or Account, will be at least sufficient: (i) to provide for the payment of Operation and Maintenance Expenses for the Fiscal Year; and (ii) to provide for the greater of (a) the sum of the amounts needed to make the deposits required to be made pursuant to all resolutions, ordinances, indentures and trust agreements pursuant to which all outstanding First Lien Bonds, Second Lien Obligations, Third Lien Obligations or other Airport Obligations are issued and secured, and (b) 110 percent the Aggregate First, Second and Third Lien Debt Service for the Bond Year commencing during that Fiscal Year, reduced by any proceeds of Airport Obligations held by the Trustee for disbursement during that Bond Year to pay principal of and interest on First Lien Bonds, Second Lien obligations or Third Lien obligations. This requirement was met at December 31, 2008.

The master indenture securing the Passenger Facility Charge (PFC) Revenue Bonds requires PFC revenues, as defined, to be deposited into the PFC Revenue Fund. The PFC Revenue Fund is required to transfer amounts no later than the twentieth day of each month to various funds, as defined, as appropriate to meet debt service and debt service reserve requirements.

- f) **No-Commitment Debt and Public Interest Loans** include various special assessment, private activity bonds and loans. These types of financings are used to provide private entities with low-cost capital financing for construction and rehabilitation of facilities deemed to be in the public interest. Bonds payable on no-commitment debt are not included in the accompanying financial statements because the City has no obligation to provide for their repayment, which is the responsibility of the borrowing entities. In addition, federal programs/grants, including Community Development Block Grants, Urban Development Action Grants and Community Service Block Grants, provide original funding for public interest loans. Loans receivable are not included as assets because payments received on loans are used to fund new loans or other program activities in the current year and are not available for general City operating purposes. Loans provided to third parties are recorded as current and prior year programs/grants expenditures. Funding for future loans will be from a combination of the repayment of existing loans and additional funds committed from future programs/grants expenditures.

**CITY OF CHICAGO, ILLINOIS**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**YEAR ENDED DECEMBER 31, 2008 - CONTINUED**

g) **Defeased Bonds** have been removed from the Statement of Net Assets because related assets have been placed in irrevocable trusts that, together with interest earned thereon, will provide amounts sufficient for payment of all principal and interest. Defeased bonds at December 31, 2008, not including principal payments due January 1, 2009, are as follows (dollars in thousands):

	<u>Amount</u> <u>Defeased</u>	<u>Outstanding</u>

---

**11) Pension Plans**

- a) **Retirement Benefit** - Eligible City employees participate in one of four single-employer defined benefit pension plans (Plans). These Plans are: the Municipal Employees'; the Laborers' and Retirement Board Employees'; the Policemen's; and the Firemen's Annuity and Benefit Funds of Chicago. Plans are administered by individual retirement boards represented by elected and appointed officials. Certain employees of the Chicago Board of Education participate in the Municipal Employees' or the Laborers' and Retirement Board Employees' Annuity and Benefit Funds for which the City levies taxes to make the required employer contributions. Each Plan issues a publicly available financial report that includes financial statements and required supplementary information.

The financial statements of the Plans are prepared using the accrual basis of accounting. Employer and employee contributions are recognized in the period in which employee services are performed. Benefits and refunds are recognized when payable.

Plan investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on national or international exchanges are valued at the last reported sales price at current exchange rates. Fixed income securities are valued principally using quoted market prices provided by independent pricing services. For collective investments, the net asset value is determined and certified by the investment managers as of the reporting date. Real estate investments are generally valued by appraisals or other approved methods. Investments that do not have an established market are reported at estimated fair value.

The Plans have a securities lending program. At year-end, the Plans have no credit risk exposure to borrowers because the amounts the Plans owe the borrowers exceed the amounts the borrowers owe the Plans. The contract with the Plans' master custodian requires it to indemnify the Plans if the borrowers fail to return the securities (and if the collateral is inadequate to replace the securities lent) or fail to pay the fund for income distributions by the securities' issuers while the securities are on loan. All securities loans can be terminated on demand by either the Plans or the borrower, although the average term of the loans has not exceeded 64 days. The Plans' custodian lends securities for collateral in the form of cash, irrevocable letters of credit and/or U.S. government obligations equal to at least 102 percent of the fair value of securities or international securities for collateral of 105 percent. Cash collateral is invested in the lending agents' short-term investment pool, which at year-end has a weighted average maturity that did not exceed 45 days. The Plans cannot pledge to sell collateral securities received unless the borrower defaults. Loans outstanding as of December 31, 2008 are as follows: market value of securities loaned \$1,087.3 million, market value of cash collateral from borrowers \$1,104.2 million and market value of non-cash collateral from borrowers \$2.9 million.

The Plans provide retirement, disability, and death benefits as established by State law. Benefits generally vest after 20 years of credited service. Employees who retire at or after age 55 (50 for policemen and firemen) with 20 years of credited service qualify to receive a money purchase annuity and those with more than 20 years of credited service qualify to receive a minimum formula annuity. The annuity is computed by multiplying the final average salary by a percentage ranging from 2.0 percent to 2.4 percent per year of credited service. The final average salary is the employee's highest average annual salary for any four consecutive years within the last 10 years of credited service.

State law requires City contributions at statutorily, not actuarially determined rates. The City's contribution is equal to the total amount of contributions by employees to the Plan made in the calendar year two years prior, multiplied by 1.25 for the Municipal Employees', 1.00 for the Laborers', 2.00 for the Policemen's, and 2.26 for the Firemen's. State law also requires covered employees to contribute a percentage of their salaries.

b) **Other Postemployment Benefits (OPEB)** - Under State law, certain health benefits are available to employees who retire from the City based upon their participation in the City's pension plans. The Pension Plans and the City agreed to share in the cost of the Settlement Health Care Plan (see Note 12). This single employee defined benefit plan is administered by the City. Substantially all employees who qualify as Municipal or Laborers' pension plan participants older than age 55 with at least 20 years of service and Police and Fire pension plan participants older than age 50 with at least 10 years of service may become eligible for postemployment benefits if they eventually become an annuitant. Health benefits include basic benefits for annuitants and supplemental benefits for Medicare eligible annuitants. The amounts below represent the accrued liability of the City's pension plans related to their own employees and a subsidy paid to the City (see Note 12). The plan is financed on a pay as you go basis (dollars in thousands).

**Annual OPEB Cost and Contributions Made

**Actuarial Method and Assumptions** - Projections of benefits for financial reporting purposes are based on the substantive plan (the plan understood by the employer and plan members) and included the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial method and assumptions used include techniques that are designed to reduce the effects of short term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long term perspective of the calculations.

**CITY OF CHICAGO, ILLINOIS  
NOTES TO BASIC FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2008 - CONTINUED**

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as the results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presents, as required, supplementary information following the notes to the financial statements (dollars in thousands, unaudited).

<u>Actuarial Valuation Date</u>	<u>Actuarial Value of Assets ( a )</u>	<u>Actuarial Accrued Liability (AAL) Entry Age ( b )</u>	<u>Unfunded (Surplus) UAAL ( b-a )</u>	<u>Funded Ratio ( a/b )</u>	<u>Covered Payroll ( c )</u>	<u>Unfunded (Surplus) AAL as a Percentage of Covered Payroll (( b-a ) / c )</u>
12/31/2008	\$ -	\$ 222,691	\$ 222,691	-	\$ 1,543,977	14.42 %

12/31/2008	-	47,309	47,309	-	396,182	11.94

**12) Other Postemployment Benefits – City Obligation**

The annuitants who retired prior to July 1, 2005 received a 55 percent subsidy from the City and the annuitants who retired on or after July 1, 2005 received a 50, 45, 40 and zero percent subsidy from the City based on the annuitant's length of actual employment with the City for the gross cost of retiree health care under a court approved settlement agreement. The pension funds contributed \$55 for each Medicare eligible annuitant and \$85 for each Non-Medicare eligible annuitant to their gross cost. The annuitants contributed a total of \$59.6 million in 2008 to the gross cost of their retiree health care pursuant to premium amounts set forth in the above-referenced settlement agreement.

The cost of health benefits is recognized as an expenditure in the accompanying financial statements as claims are reported and are funded on a pay-as-you-go basis. In 2008, the net expense to the City for providing these benefits to approximately 24,323 annuitants plus their dependents was approximately \$89.3 million.

The City's net expense and the annuitants' contribution indicated above are preliminary and subject to the reconciliation per the court approved settlement agreement.

**Plan Description Summary** - The City of Chicago is party to a written legal settlement agreement outlining the provisions of the retiree health program, The Settlement Health Care Plans (the Plans), through June 30, 2013. The agreement does not require or extend continuation of the Plans after June 30, 2013. Pursuant to the Settlement, the City administers a single employer defined benefit healthcare plan (the Health Plan), for which the City pays a portion of the costs on a pay as you go method. Under the Settlement agreement, the City of Chicago sponsors health benefit plans for employees, former employees and retired former employees. The provisions of the program provide in general, that the City pay a percentage of the cost (based upon an employee's service) for hospital and medical coverage to eligible retired employees and their dependents for a specified period, until June 30, 2013.

In addition, Illinois Compiled Statutes authorize the four respective Pension Funds (Police, Fire, Municipal, and Laborers) to provide a fixed monthly dollar subsidy to each annuitant who has elected coverage under the Health Plan through June 30, 2013. After that date, no supplements are authorized.

**CITY OF CHICAGO, ILLINOIS**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**YEAR ENDED DECEMBER 31, 2008 - CONTINUED**

The liabilities for the monthly dollar supplements paid to annuitants enrolled in the retiree medical plan by their respective Pension Funds are included in the liabilities and reports of the respective four Pension Funds (see Note 11).

**Funding Policy** - The City's retiree health plan is a single employer plan which operates on a pay as you go funding basis. No assets are accumulated or dedicated to funding the retiree health plan benefits.

**Annual OPEB Cost and Net OPEB Obligation** - The City's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC). The ARC (Annual Required Contribution) represents a level of funding, that if paid on an ongoing basis, is projected to cover the normal cost each year and to amortize any unfunded actuarial liabilities over a period of five and one-half years (the remaining years of coverage under the Settlement agreement).

The following table shows the components of the City's annual OPEB costs for the year for the Settlement Plan, the amount actually contributed to the plan and changes in the City's net OPEB obligation to the Retiree Health Plan. The *Net OPEB Obligation* is the amount entered upon the City's Statement of Net Assets as of year end as the net liability for the other postemployment benefits – the retiree health plan. The amount of the annual cost for the retiree health plan which is to be recorded in the Statement of Changes in Net Assets for 2008 is the *Annual OPEB Cost (expense)*.

**Annual OPEB Cost and Contributions Made**  
(dollars in thousands)

	Retiree Settlement Health Plan
Contribution Rates:	
City	Pay As You Go
Plan Members	N/A
Annual Required Contribution	\$ 244,692
Interest on Net OPEB Obligation	6,453
Adjustment to Annual Required Contribution	(32,248)
Annual OPEB Cost	218,897
Contributions Made	97,968
Increase in Net OPEB Obligation	120,929
Net OPEB Obligation, Beginning of Year	148,346
Net OPEB Obligation, End of Year	\$ 269,275

**CITY OF CHICAGO, ILLINOIS  
NOTES TO BASIC FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2008 - CONTINUED**

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for fiscal year 2008 is as follows (dollars in thousands):

<b>Schedule of Contributions, OPEB Costs and Net Obligations</b>			
Fiscal Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
12/31/2008	\$ 218,897	44.8%	\$ 269,275
12/31/2007	245,591	39.6	148,346

The City, as required, adopted GASB Statement No. 45 in fiscal year 2007. Information is provided for Fiscal Year End 2008. Subsequent years' disclosure will provide information for the reporting year and for the prior two years, as applicable.

**Funded Status and Funding Progress** - As of January 1, 2008, the most recent actuarial valuation date, the actuarial accrued liability for benefits was \$1,062,864 all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) was approximately \$2,562,067 and the ratio of the unfunded actuarial accrued liability to the covered payroll was 41 percent.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as the results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presents, as required, supplementary information following the notes to the financial statements (dollars in thousands, unaudited).

Actuarial Valuation Date	Actuarial Value of Assets	Actuarial Accrued Liability (AAL)	Unfunded Actuarial Accrued Liability (UAAL)	Funded Ratio	Covered Payroll
12/31/2007	\$ -	\$ 1,062,864	\$ 1,062,864	0%	\$ 2,562,067

**Actuarial Method and Assumptions** - Projections of benefits for financial reporting purposes are based on the substantive plan (the plan understood by the employer and plan members) and included the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial method and assumptions used include techniques that are designed to reduce the effects of short term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long term perspective of the calculations.

For the Settlement Plan benefits (not provided by the Pension Funds) in the actuarial valuation for the fiscal year ended December 31, 2008, the projected unit credit actuarial cost method was used. The actuarial assumptions included an annual healthcare cost trend rate of 12 percent initially, reduced by decrements to an ultimate rate of 7 percent. Both rates included a 3 percent inflation assumption. The plan has not accumulated assets and does not hold assets in a segregated trust. However, the funds expected to be used to pay benefits are assumed to be invested for durations which will yield an annual return rate of 4.35 percent. The Unfunded Accrued Actuarial Liability is being amortized as a level dollar amount over 5.5 years.

**CITY OF CHICAGO, ILLINOIS  
NOTES TO BASIC FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2008 - CONTINUED**

**Summary of Assumptions and Methods**

	<u>Settlement Health Plan</u>
Actuarial Valuation Date	December 31, 2007
Actuarial Cost Method	Projected Unit Credit
Amortization Method	Level Dollar, Closed
Remaining Amortization Period	5.5 years
Asset Valuation Method	Market Value
Actuarial Assumptions:	
Investment Rate of Return	4.35%
Projected Salary Increases	2.50%
Healthcare Inflation Rate	12% initial to 7% ultimate

**13) Risk Management**

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; certain benefits for and injuries to employees and natural disasters. The City provides worker's compensation benefits and employee health benefits under self-insurance programs except for insurance policies maintained for certain Enterprise Fund activities. The City uses various risk management techniques to finance these risks by retaining, transferring and controlling risks depending on the risk exposure.

Risks for O'Hare, Midway, and certain other major properties, along with various special events, losses from certain criminal acts committed by employees and public official bonds are transferred to commercial insurers. Claims have not exceeded the purchased insurance coverage in the past three years, accordingly, no liability is reported for these claims. All other risks are retained by the City and are self-insured. The City pays claim settlements and judgments from the self-insured programs. Uninsured claim expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. The General Fund is primarily used to record all non-Enterprise Fund claims. The estimated portion of non-Enterprise Fund claims not yet settled has been recorded in the Governmental Activities in the Statement of Net Assets as claims payable along with amounts related to deferred compensatory time and estimated liabilities for questioned costs. As of December 31, 2008, the total amount of non-Enterprise Fund claims was \$450.5 million. This liability is the City's best estimate based on available information. Changes in the reported liability for all funds are as follows (dollars in thousands):

	<u>2008</u>	<u>2007</u>
Balance, January 1.....	\$ 503,636	\$ 401,237
Claims incurred on current and prior year events.....	627,660	527,118
Claims paid on current and prior year events.....	<u>(633,769)</u>	<u>(424,719)</u>
Balance, December 31.....	<u>\$ 497,527</u>	<u>\$ 503,636</u>

**CITY OF CHICAGO, ILLINOIS  
NOTES TO BASIC FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2008 - CONTINUED**

---

**14) Commitments and Contingencies**

The City is a defendant in various pending and threatened individual and class action litigation relating principally to claims arising from contracts, personal injury, property damage, police conduct, alleged discrimination, civil rights actions and other matters. City management believes that the ultimate resolution of these matters will not have a material adverse effect on the financial position of the City.

The City participates in a number of federal-and state-assisted grant programs. These grants are subject to audits by or on behalf of the grantors to assure compliance with grant provisions. Based upon past experience and management's judgment, the City has made provisions in the General Fund for questioned costs and other amounts estimated to be disallowed. City management expects such provision to be adequate to cover actual amounts disallowed, if any.

As of December 31, 2008, the Enterprise Funds have entered into contracts for approximately \$539.7 million for construction projects.

In consideration for being selected as the U. S. candidate city, the City executed a Joinder Agreement (the "Joinder Agreement") for the benefit of the United States Olympic Committee (the USOC). Under the Joinder Agreement, the City agrees to be liable for any obligations of the City's bid committee and organizing committee for the Games (collectively, the "City Committees") to the USOC, the International Olympics Committee (the "IOC") and the International Paralympics Committee (the "IPC") up to an amount not to exceed \$500 million after all contingency and surplus funds are expended. If the City is not selected by the IOC and the IPC to host the Games, the City will not have any liability under the Joinder Agreement.

In November, 2006, the GASB issued Statement No. 49, *Accounting and Financial Reporting for Pollution Remediation Obligations*. The Statement establishes accounting and financial reporting standards for pollution remediation obligations which are obligations to address the current or potential detrimental effects of existing pollution (e.g., hazardous wastes spills and asbestos contamination) by participating in pollution remediation activities such as site assessments and cleanups. The City implemented GASB Statement No. 49 for the year ended December 31, 2008, and the City recorded an estimated pollution remediation obligation of \$33.2 million as current year expense in the Statement of Activities.

The City's pollution remediation obligation is primarily related to Brownfield redevelopment projects. These projects include removal of underground storage tanks, cleanup of contaminated soil, and removal of other environmental pollution identified at the individual sites. The estimated liability is calculated using the expected cash flow technique. The pollution remediation obligation is an estimate and subject to changes resulting from price increases or reductions, technology, or changes in applicable laws or regulations.

**15) Subsequent Events**

In January 2009, the City sold General Obligation Project and Refunding Bonds Series 2008C, General Obligation Library Bonds Series 2008D and General Obligation Taxable Project and Refunding Series 2008E (\$611 million). A portion of the 2008C bonds were issued as capital appreciation bonds with yields ranging from 4.71 percent to 5.87 percent and maturity dates from January 1, 2021 to January 1, 2032. The 2008C current interest bonds were issued with interest rates ranging from 4.24 percent to 5.00 percent and maturity dates from January 1, 2023 to January 1, 2040. The 2008D bonds were issued at interest rates ranging from 1.00 percent to 5.00 percent and maturity dates from January 1, 2010 to January 1, 2039. The 2008E bonds were issued as a term bond with a 6.05 percent interest rate and maturing January 1, 2029. Proceeds will be used to pay a portion of the costs of various capital projects and to refund certain commercial paper notes and general obligation bonds of the City.

On January 28, 2009, the City terminated the interest rate swap agreement with Lehman Brothers for the Series 2008C Wastewater Transmission Revenue Bonds. The City paid \$38.1 million to terminate the swap and received an upfront payment to execute a new swap of \$38.7 million.

**CITY OF CHICAGO, ILLINOIS  
NOTES TO BASIC FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2008 - CONCLUDED**

---

In February 2009, the City finalized a \$1.1 billion agreement with Chicago Parking Meters, LLC for a 75-year concession agreement to operate Chicago's metered parking system. Proceeds were allocated across a revenue replacement fund, mid-term fund, human infrastructure fund and budget stabilization fund.

In April 2009, \$40 million of Chicago-O'Hare International Airport Commercial Paper Notes, Series B were issued. The proceeds will be used to finance portions of the costs of authorized airport projects and to repay the expenses of issuing the notes.

In September 2008, the City of Chicago received a winning bid of \$2.521 billion from Midway Investment and Development Company, LLC for a ninety-nine year lease of Midway Airport. Amid the global credit crisis, the transaction to privatize Midway Airport will not be executed. However, in April 2009, the City did receive a non-refundable security deposit payment of \$126 million.

The global economic downturn has adversely impacted the City's variable rate debt. In 2008 and 2009 global financial markets incurred substantial declines in value due to the credit crisis. Monoline insurers' credit ratings came under review due to subprime mortgage exposure resulting in downgrades by the major rating agencies. As a result credit spreads increased on the City's variable rate debt, especially with insured bonds, therefore the City refinanced or converted many of its variable rate debt issues. In 2009, the City utilized liquidity facilities to convert three variable rate issues in the amount of \$509.2 million and thereby removing the monoline insurers. Various bonds series that were unable to be remarketed in 2008 were converted out of bank bond mode during 2009. In addition, other bond series have gone into bank bond mode during 2009.

## NONMAJOR SPECIAL REVENUE FUNDS

**Vehicle Tax Fund** - Expenditures made in accordance with the policy established by the City Council in connection with street repairs and maintenance, as provided by sale of vehicle licenses.

**Motor Fuel Tax and Project Fund** - Expenditures for repair and maintenance of streets and pavements as provided by the City's distributive share of State Motor Fuel Tax and Motor Fuel Tax Revenue Bonds.

**Pension Fund** - For the City's contribution to Employees' Annuity and Benefit Funds as provided by tax levy and State Personal Property Replacement Tax revenue.

**Public Building Commission Fund** - For rentals of space and long-term lease obligations by the City as provided by tax levy.

**Miscellaneous Fund** - Expenditures for environmental management purposes related to liquid waste, inspection, operation of emergency communication system and other obligations, as provided by revenues from fees collected for disposal of liquid waste, by fees on telephone billings and transfers in.

**Chicago Public Library Fund** - Expenditures for acquisition, repairs, construction and equipment of library buildings; also library maintenance and operations as provided by proceeds of debt, fines and miscellaneous revenues.

**Special Events, Tourism and Festivals Fund** - Expenditures for promoting tourism, conventions and other special events projects in Chicago as provided by the State from Municipal Hotel-Motel Tax receipts and by proceeds from Jazz, Blues and Gospel Festivals and Taste of Chicago.

**Health and Welfare Fund** - For general assistance to be expended and administered by the Illinois Department of Public Aid as provided by patient fees, City and State grants and proceeds of debt, and for neighborhood human infrastructure projects designed to improve the quality of life for citizens.

## **PART III**

### **STATISTICAL SECTION (UNAUDITED)**

This part of the City's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information says about the City's overall financial health.

#### Contents

#### **Financial Trends**

These schedules contain trend information to help the reader understand how the City's financial performance and well being have changed over time.

#### **Revenue Capacity**

These schedules contain information to help the reader assess the City's most significant local revenue source, the property tax.

#### **Debt Capacity**

These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

#### **Demographic and Economic Information**

These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.

#### **Operating Information**

These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The City implemented GASB Statement No. 34 in 2002; schedules presenting government-wide information include information beginning that year.

**NOTE:**

(1) The amounts listed above for each year include amounts payable January 1 of the following year. Bonds maturing and interest payable January 1, 2009, have been excluded from this schedule because funds for their payment have been provided in the debt service funds. For variable rate debt, interest has been calculated at the rate in effect or effective rate of a Swap Agreement, if applicable, as of December 31, 2008. Amounts above exclude Commercial Paper issues as the timing of payments is not certain.

**NOTE:**

(1) The amounts listed above for each year include amounts payable January 1 of the following year. Bonds maturing and interest payable January 1, 2009, have been excluded from this schedule because funds for their payment have been provided in the debt service funds. For variable rate debt, interest has been calculated at the rate in effect or effective rate of a Swap Agreement, if applicable, as of December 31, 2008. Amounts above exclude Commercial Paper issues as the timing of payments is not certain.
