JUSTIFICATION FOR NON-COMPETITIVE PROCUREMENT (Attachment)

1. Procurement History

Federal responsibility for conducting National Environmental Protection Act 1970 (NEPA) environmental reviews for certain City of Chicago and CHA projects has previously been granted to the City of Chicago, under the authority of the U.S. Department of Housing and Urban Development's (HUD), "Environmental Review Procedures for Entities Assuming HUD Environmental Responsibilities," as set forth in Title 24, Part 58, of the Code of Federal Regulations.

The Department of Environment (DOE) has a team of four employees who undertake this work. These employees have only worked for short time in this capacity (ranging from 1 to 7 months). It is DOE's opinion that further training of these employees is necessary. This is particularly so as DOE is on notice that HUD will be conducting a formal audit of this work in the near future. DOE will also require expert advice/assistance in updating its Neighborhood Strategy Areas (NSAs) that have proved to be an effective tool in assisting with the timely issue of NEPA environmental clearance certifications. HUD has indicated that updating the NSAs is necessary if the City wants to continue to rely on them.

2. Estimated Cost

\$4000 @ \$70 per hour.

This includes 1.5 days of training and advice/assistance in the NSAs update process (approx. 40 hours).

3. Schedule Requirements

Tentative dates:

- Proposed training end of February-early March 2005; and
- NSAs update process early March-June 2005.

4. Exclusive and Unique Capability

Mr. Eugene Goldfarb (Great Lakes Environmental Planning) is a town planner and admitted attorney in the State of Illinois (his resume is attached). Since the 1974 until the end of 2004 (when he retired), he was an Environmental Officer in the HUD's regional office in Chicago. In this capacity, he dealt with a myriad of NEPA environmental reviews. Mr. Goldfarb has also trained employees of responsible entities from across the country since 1993. He has honed training skills also having lectured at UIC (Environmental Planning undergraduate course) for the last 12 years.

In the second quarter of 2004, DOE put out a RFS for assistance with NEPA environmental reviews. No suitable candidates were found.
